The Conspiract Quartet:

The Conspiracy Quartet David Clewell, Peter Genovese, 1997 **Support in Times of No Support** Wolfgang Frindte, Ina Frindte, 2023-01-01 In the summer of 2018 the authors of the book stood in the Musée des Arts et Métiers in Paris They marvelled at the Foucault pendulum which made its circular movements on a long rope under the dome Like Casaubon in Umberto Eco's book *The Foucault Pendulum* the authors were amazed and wondered what could be at the ideal end of the thread pendulum The fixed point that could give us support and security in an uncertain world and difficult times What uncertainties what times or even what threats are we actually talking about Where can we find the fixed points the safe spaces of our lives This book deals with these and other questions The authors found inspiration for the book in Umberto Eco And so it is also a homage to Eco *Alexandrian Cosmopolitanism* Hala Halim, 2013-09-19 Interrogating how Alexandria became enshrined as the exemplary cosmopolitan space in the Middle East this book mounts a radical critique of Eurocentric conceptions of cosmopolitanism The dominant account of Alexandrian cosmopolitanism elevates things European in the city's culture and simultaneously places things Egyptian under the sign of decline The book goes beyond this civilization barbarism binary to trace other modes of intercultural solidarity Halim presents a comparative study of literary representations addressing poetry fiction guidebooks and operettas among other genres She reappraises three writers C P Cavafy E M Forster and Lawrence Durrell whom she maintains have been cast as the canon of Alexandria Attending to issues of genre gender ethnicity and class she refutes the view that these writers' representations are largely congruent and uncovers a variety of positions ranging from Orientalist to anti colonial The book then turns to Bernard de Zogheb a virtually unpublished writer and elicits his Camp parodies of elite Levantine mores in operettas one of which centers on Cavafy Drawing on Arabic critical and historical texts as well as contemporary writers and filmmakers' engagement with the canonical triumvirate Halim orchestrates an Egyptian dialogue with the European representations **The Low End of Higher Things** David Clewell, 2003 *The Low End of Higher Things* by David Clewell is a collection of poems that explores various topics with a narrative energy and multi layered curiosity One of the highlights is an elegy for a federal agent who jumped out a window under the influence of LSD The poems are known for their engagement with subjects that might not seem high but are elevated by Clewell's poetic treatment **Lawrence Durrell: The Mindscape** Richard Pine, 2016-07-27 In this second volume of his study of the Anglo Irish novelist Lawrence Durrell following the appearance in 1988 of *The Dandy and the Herald Manners Mind and Morals from Brummell to Durrell* Richard Pine examines in detail Durrell's unique contribution to the development of the modern novel concentrating in particular on the evidence of Durrell's private notebooks and diaries Pine's twenty year friendship with Durrell has resulted in an intimate portrait of a singular mind whose extraordinary career both as a writer and as a British colonial official is hallmarked by the creation of the Heraldic Universe an imaginative realm within which the artist reigns supreme **American Political Culture** Michael Shally-Jensen, Mark J.

Rozell, Ted G. Jelen, 2015-04-28 This all encompassing encyclopedia provides a broad perspective on U S politics culture and society but also goes beyond the facts to consider the myths ideals and values that help shape and define the nation Demonstrating that political culture is equally rooted in public events internal debates and historical experiences this unique three volume encyclopedia examines an exceptionally broad range of factors shaping modern American politics including popular belief political action and the institutions of power and authority Readers will see how political culture is shaped by the attitudes opinions and behaviors of Americans and how it affects those things in return The set also addresses the issue of American exceptionalism and examines the nation s place in the world both historically and in the 21st century Essays cover pressing matters like congressional gridlock energy policy abortion politics campaign finance Supreme Court rulings immigration crime and punishment and globalization Social and cultural issues such as religion war inequality and privacy rights are discussed as well Perhaps most intriguingly the encyclopedia surveys the fierce ongoing debate between different political camps over the nation s historical development its present identity and its future course By exploring both fact and mythology the work will enable students to form a broad yet nuanced understanding of the full range of forces and issues affecting and affected by the political process

German Leaders of Yesterday and To-day Erich Franz Otto

Dombrowski, 1920 **American Lumberman**, 1912 *An Introduction to the Dramatic Works of Giacomo Meyerbeer: Operas, Ballets, Cantatas, Plays* Robert Ignatius Letellier, 2017-07-05 Giacomo Meyerbeer 1791 1864 was a great musical dramatist in his own right The fame of his operas rests on his radical treatment of form his development of scenic complexes and greater plasticity of structure and melody his dynamic use of the orchestra and close attention to all aspects of presentation and production all of which set new standards in Romantic opera and dramaturgy This book carries forward the process of rediscovery and reassessment of Meyerbeer s art including not just his famous French operas but also his German and Italian ones placing them in the context of his entire dramatic oeuvre including his ballets oratorios cantatas and incidental music From Meyerbeer s first stage presentation in 1810 to his great posthumous accolade in 1865 some 24 works mark the unfolding of this life lived for dramatic music The reputation of the famous four grand operas may well live on in the public consciousness but the other works remain largely unknown This book provides an approachable introduction to them The works have been divided into their generic types for quick reference and helpful association and placed within the context of the composer s life and artistic development Each section unfolds a brief history of the work s origins an account of the plot a critical survey of some of its musical characteristics and a record of its performance history Robert Letellier examines each work from a dramaturgical view point including the essential often challenging philosophical and historical elements in the scenarios and how these concepts were translated musically onto the stage A series of portraits and stage iconography assist in bringing the works to life
