Thinking Animals:

Thinking Animals Paul Shepard, 2011-07-01 In a world increasingly dominated by human beings the survival of other species becomes more and more questionable In this brilliant book Paul Shepard offers a provocative alternative to an us or them mentality proposing that other species are integral to humanity's evolution and exist at the core of our imagination This trait he argues compels us to think of animals in order to be human Without other living species by which to measure ourselves Shepard warns we would be less mature care less for and be more careless of all life including our own kind

Thinking Animals Kari Weil, 2012 Kari Weil provides a critical introduction to the field of animal studies as well as an appreciation of its thrilling acts of destabilization Examining real and imagined confrontations between human and nonhuman animals she charts the presumed lines of difference between human beings and other species and the personal ethical and political implications of those boundaries Weil's considerations recast the work of such authors as Kafka Mann Woolf and Coetzee and such philosophers as Nietzsche Heidegger Derrida Deleuze Agamben Cixous and Hearne while incorporating the aesthetic perspectives of such visual artists as Bill Viola Frank Noelker and Sam Taylor Wood and the visual thinking of the autistic animal scientist Temple Grandin She addresses theories of pet keeping and domestication the importance of animal agency the intersection of animal studies disability studies and ethics and the role of gender shame love and grief in shaping our attitudes toward animals Exposing humanism's conception of the human as a biased illusion and embracing posthumanism's acceptance of human and animal entanglement Weil unseats the comfortable assumptions of humanist thought and its species specific distinctions
