Schooling for Sustainable Development in Africa Heila Lotz-Sisitka, Overson Shumba, Justin Lupele, Di Wilmot, 2016-11-11 This book considers the scope and dynamics of Education for Sustainable Development ESD and learning in schools in Africa It explores the conditions and processes that support such learning and examines how ESD in schooling can improve the quality and relevance of education The quality of education has been defined internationally as a key concern for educational institutions around the world including schools in Africa The models of quality are often limited to performance based approaches and or inclusive approaches The contributions in this book show that there is more to a discussion on educational quality in Africa than performance success and or inclusion The chapters explain how ESD brings a new relevance to education in Africa and at the same time sounds the beginning of a new concept of quality education The volume presents a collection of experiences in creating and supporting quality learning processes through a variety of ESD practices

Educating the Sustainability Leaders of the Future Walter Leal Filho, Amanda Lange Salvia, Eric Pallant, Beth Choate, Kelly Pearce, 2023-03-10 This book focuses on educating the sustainability leaders of the future and will contribute to the further development of this fast growing field As the title suggests it presents practical experiences related to education research and extension the so called third mission whereby universities conduct outreach to society as a whole e g to local communities organisations industry and other groups with the aim of documenting such experiences and making them available to a wide audience This book is produced by the European School of Sustainability Science and Research ESSSR through the Inter University Sustainable Development Research Programme IUSDRP and contains inputs from authors from across all geographical regions It gives a special emphasis to the participation of future generations on sustainability efforts The book also discusses examples of initiatives coordinated by universities but involving civil society the private sector and public sector including local national and intergovernmental bodies In particular it describes practical experiences partnerships networks and training schemes for building capacity aimed at fostering the cause of sustainable development at institutions of higher education Thanks to its design and the contributions by experts from various areas it provides a welcome contribution to the literature on sustainable development and it inspires further works in this field

Education for Sustainable Development Education for sustainable development in action: learning & training tools, 4, UNESCO, 2012-06-06 International Yearbook for Research in Arts

Education 2/2014 Larry O'Farrell, Shifra Schonmann, Ernst Wagner, 2014 Building on earlier discourse the current yearbook volume continues to focus on questions of research in the field of cultural and arts education from a global perspective This year's volume opens with a review of important contributions to the World Summit in Arts Education held in Wildbad Kreuth Germany in 2013 It continues with the topics of evaluation mapping and monitoring introduced in the first volume Theoretical and practical applications of the key foundations of work in the International Network for Research in Arts Education INRAE are also explored at length Most notably new approaches aimed at linking arts education to peace education and the application of these approaches to education for sustainable development ESD are introduced and explored

The Contribution of Universities Towards Education for Sustainable Development Walter Leal Filho, Thais Dibbern, Salvador Ruiz de Maya, María-del-Carmen Alarcón-del-Amo, Longinos Marin Rives, 2024-04-01 The book gathers inputs from universities and research organizations working on matters related to sustainable development in a variety of contexts It also provides a platform for the dissemination of information on the latest initiatives paving the way for technology transfer and networking Furthermore the book intends to provide a fertile basis upon which universities may cooperate more closely in this key area Universities as centers of education research and innovation have a unique position and responsibility in promoting sustainability They can offer degree programs courses and workshops focused on sustainability environmental studies and related fields educating students and the wider community about the principles and challenges of sustainability Also universities can conduct cutting edge research to address sustainability challenges such as climate change resource depletion and biodiversity loss They can develop innovative technologies and solutions that promote sustainable practices in various sectors including energy agriculture transportation and urban planning There is a perceived need to better understand and engage universities further on sustainability initiatives Against this backdrop and in order to facilitate a broad discussion on the contribution of universities toward sustainability this book is being produced Last but not least a further aim of the book is to present methodological approaches and experiences deriving from case studies and projects which aim to show how sustainability may be incorporated as part of university programs

Environmental and Geographical Education for Sustainability Zijian Li, Michael Williams, 2006 Geography environment sustainability culture and education standing alone or in any combination provide the ingredients for a variety of stews They are all difficult to define and they generate endless debates for theoreticians and practitioners about their meaning and significance The editors have divided the chapters that follow into two parts in an effort to unit these diverse disciplines Part 1 is concerned with cultural foundations and curriculum issues related to geographical and environmental education for sustainability Part 2 comprises a series of chapters presenting education for sustainability in the contexts of national cultures

Schooling for Sustainable Development in Canada and the United States Rosalyn McKeown, Victor Nolet, 2012-07-26 Education for sustainable development ESD presents an intriguing challenge in developed countries The very notion of sustainable

development may appear to be at cross purposes with the social and political aims of large industrial economies Yet arguably the residents of wealthy countries may be most in need of new ways of thinking and behaving on an increasingly more fragile and crowded planet This book presents a collection of essays that capture the depth and diversity of education for sustainable development ESD work in formal education in Canada and the United States Many of the authors are pioneers in the field of ESD not only in their own countries but internationally In this book they share their expertise lessons learned and insights into the ongoing success of their work The essays reflect leading edge practice innovation and depth of experience and provide clear models and strategies for expanding the application and influence of ESD in wealthy countries The ESD programs described in the book are relevant and culturally appropriate for the specific locally contexts in which they are found but also in the larger context of ESD writ large as a planetary endeavour □□ ,2008-07 **Resources in**
