It provides for the needs of students at schools and universities who are studying ancient history in English translation and has been written and reviewed by experienced teachers. *Cicero's Cilician Letters* Marcus Tullius Cicero,1972 *Cicero* Gesine Manuwald,2014-11-28 Marcus Tullius Cicero 106-43 BCE introduced Romans to the major schools of Greek philosophy, forging a Latin conceptual vocabulary that was entirely new. But for all the sophistication of his thinking, it is perhaps for his political and oratorical career that Cicero is best remembered. He was the nemesis of Catiline whose plot to overthrow the Republic he famously denounced to the Senate. He was the selfless politician who turned down the opportunity to join Julius Caesar and Pompey in their ruling triumvirate with Crassus. He was briefly Rome's leading man after Caesar's assassination in 44 BCE. And he was the great political orator whose bitter conflict with Mark Antony led to his own violent death in 43 BCE. In her authoritative survey, Gesine Manuwald evokes the many faces of Cicero as well as his complexities and seeming contradictions. She focuses on his major works, allowing the great writer to speak for himself. Cicero's rich legacy is seen to endure in the works of Quintilian and the Church Fathers, as well as in the speeches of Harry S. Truman and Barack Obama. **Transactions and Proceedings of the American Philological Association** American Philological Association,1897 Bibliographical record of works published by members of the Association in v. 28, 1897. **The Athenaeum** ,1871 Intercepted Letters Thomas E. Jenkins,2006-01-01 *Intercepted Letters* examines the phenomenon of epistolarity within a range of classical Greek and Roman texts, with a focus on letters as symbols for larger culturally constructed processes of reading and writing. Beginning with the myth of Palamedes and continuing through to the poets of the Roman period, *Intercepted Letters* examines the importance of epistolary motifs in narratives concerning power, voice, and interpretation.
