Total War What It Is How It Got That Way:

The Development and Principles of International Humanitarian Law Wolff Heintschel von Heinegg, 2017-07-05 The essays selected for the first part of this volume offer an insight into the development as distinguished from the history of international humanitarian law The focus of the majority of the works reprinted here is on an analysis of the adequacy of the law as it stood at the time of the respective publication and in the light of existing contemporary armed conflicts and military operations Thus the reader is afforded an in depth look at the early roots of international humanitarian law the continuing relevance of that body of law despite advances in weapons technology and the efforts to progressively develop it International humanitarian law s development cannot be considered in isolation from its principles The essays selected for the second part of the volume deal with the two fundamental principles underlying all of international humanitarian law humanity and military necessity The articles on the principles of humanity include reflections on the famous Martens Clause and the analyses of military necessity take no account of *Kriegsraison* Moreover they offer proof of the customary character of the principle of distinction in land air and naval warfare

Raymond Chandler, Romantic Ideology, and the Cultural Politics of Chivalry Anthony Dean Rizzuto, 2021-12-03 Raymond Chandler *Romantic Ideology and the Cultural Politics of Chivalry* responds to the general consensus that Philip Marlowe represents a chivalric knight out of romance The book argues that this commonplace reading requires a stunningly rosy rewriting of Marlowe knighthood chivalry and romance The book offers a history of the cultural politics of chivalry from the Middle Ages through British Romanticism to the modern United States exposing the elitism violent masculinism racism and ethno national othering harbored within Rizzuto also considers the survival of the chivalric ideology after World War I and argues that the narrative of the Great War destroying chivalry rewrites the ghastly history of warfare Touching on Chandler throughout these cultural histories the book then directly confronts the question of knighthood and romance in the Marlowe novels Rizzuto identifies an explicit rejection of romance in the service of hardboiled gender class and genre norms including a seldom remarked pattern of violence against women and sexual assault The volume concludes by offering some ideas about Chandler s motivations and the reception of the Marlowe novels

Total War Thomas Powers, Ruthven Tremain, 2004-02 Now we are in for trouble responded Robert Oppenheimer director of the atom bomb project during WW2 when he was asked to help decide what to do with the bomb The bomb worked fine But the question of what to do with the bomb or what we will do to ourselves with the bomb haunts us still In this volume statements from the pens and mouths of men who thought war and made war paint in stroke by stroke the great question that looms behind and dwarfs the bomb itself war and our historical propensity to make war on one another This harrowing but enlightening exploration will help readers draw their own conclusions about the biggest issue facing mankind at the beginning of the 21st century
