Submarines at War Edwin Palmer Hoyt, 1983 Traces the development of the submarine forces of the United States Navy from their beginnings in the early 1900s to the present *Steel Boats Iron Men - Submarine League* Mike H. Rindskopf, 1994 [The History of the British 'U' Class Submarine](#) Derek Walters, 2004-11-30 Originally designed in 1934 for anti submarine training by the end of the war 72 U Class subs had been commissioned 17 were lost to the enemy and 3 in accidents Manned by crews from seven nations navies they served worldwide and never more successfully than in the Mediterranean This book is the definitive study of this class of submarine and the men who serve on them **Submarines and the World Wars** Charles River Charles River Editors, 2018-02-27 Includes pictures Includes accounts of fighting Includes online resources and a bibliography for further reading Submarine warfare began tentatively during the American Civil War though the Netherlands and England made small prototypes centuries earlier and the American sergeant Ezra Lee piloted the one man Turtle vainly against HMS Eagle near New York in 1776 Robert Whitehead's invention of the torpedo introduced the weapon later used most frequently by submarines Steady improvements to Whitehead's design led to the military torpedoes deployed against shipping during both World Wars During World War I German U boats operated solo except on one occasion Initially the British and nations supplying England with food and materiel scattered vessels singly across the ocean making them vulnerable to the lone submarines However widespread late war re adoption of the convoy

system tipped the odds in the surface ships favor as one U boat skipper described The oceans at once became bare and empty for long periods at a time the U boats operating individually would see nothing at all and then suddenly up would loom a huge concourse of ships thirty or fifty or more of them surrounded by a strong escort of warships of all types Blair 1996 55 World War I proved the value of submarines ensuring their widespread employment in the next conflict but by using U boats against the shipping that kept Britain supplied it might have ultimately cost Germany and Austria Hungary the war by providing a reason for President Woodrow Wilson to bring the United States into the struggle One critical innovation in World War II s Atlantic U boat operations consisted of wolf pack tactics in which Admiral Karl D nitz put great faith The greater the number of U boats that could be brought simultaneously into the attack the more favourable would become the opportunities offered to each individual attacker it was obvious that on strategic and general tactical grounds attacks on convoys must be carried out by a number of U boats acting in unison D nitz 1990 4 However even the wolf pack proved insufficient to defeat the Atlantic convoys and stop Allied commerce the precise opposite of the Pacific theater where America s excellent submarine forces annihilated much of Japan s merchant marine and inflicted severe damage on the Imperial Japanese Navy Submarines exercised a decisive impact on the outcome of the Pacific Theater in World War II The U S submarine fleet largely though not exclusively under the overall command of Vice Admiral Charles Lockwood strangled the supply lines and shipping traffic of the Empire of Japan Their commerce raiding crippled both Japan s ability to keep its frontline units supplied and to manufacture the weapons vessels and vehicles needed to successfully carry on the struggle Though constituting only 1 6% of the total U S Navy s tonnage in the Pacific the submarine fleet inflicted massive losses on the Imperial Japanese Navy and Japan s crucial merchant marine Submarines sank 55% of the merchant shipping lost or approximately 1 300 vessels overall the Allies sank 77% of Japan s shipping The submarines also sank 214 Japanese warships including 82 of 1 000 tons or more 4 carriers 4 escort carriers one battleship 4 heavy cruisers 9 light cruisers 38 destroyers and 23 submarines or approximately 30% of the entire Imperial Japanese Navy The sleek predatory craft made in the shipyards of Virginia Wisconsin or Washington state devastated the naval and freighter assets of the Empire of the Rising Sun out of all proportion to their numbers at a cost of 42 submarines on Eternal Patrol Submarines and the World Wars The History of Submarine Warfare in World War I and World War II analyzes the underwater fighting during both great conflicts

Submarines at War Michael Gunton, 2005-01-03 Submarine warfare not only took its combatants in World Wars I and II into the oceans terrifying deeps but also subjected them to crowded unhygienic frequently dispiriting and incredibly hazardous conditions Yet fear and despair among submariners were regularly countered by courage and camaraderie and the dangers these men faced daily were no less real than the triumph they felt in victory or simple survival For up to two months at a stretch a submarine might be home to its officers and crew a home which might also become a tomb Among the combating nations in World War II submarine warfare claimed the lives of 40 000 men Bringing the gripping and often

horrifying World War experiences of submariners to the page this history offers more than well researched facts and concretely detailed events It conjures up the emotions of the servicemen and the sensations of combat drawing extensively upon written firsthand accounts and dozens of interviews with veterans of submarine warfare With a focus on the experiences of the officers and men most of them in their early twenties Submarines at War chronicles the triumphs of Allied submarines the plights of the German U boats and lesser known maneuvers of the Russians Italians and French **Meeting the Submarine Challenge** John Merrill, Lionel D. Wyld, 1997 [An Annotated Bibliography of Submarine Technical Literature, 1557 to 1953](#) National Research Council (U.S.). Committee on Undersea Warfare, 1954 *Submarines* New York Public Library, 1918 **The Submarine** Duncan Redford, 2010-07-30 Underhand and damned un English was the view of submarines in Edwardian Britain Yet by the 1960s the new nuclear powered submarines were seen by the Royal Navy as being the hallmark of a first class navy In this book Duncan Redford a retired Royal Navy submarine officer explores how and why attitudes to the submarine changed in Britain between 1900 and 1977 Using a wide array of previously unpublished sources Redford sheds light on what the British thought about submarines both their own and those that were used against them Rather than providing an operational history of Britain s submarines this book looks at naval and civilian conceptions of what submarine warfare was imagined to be like in the context of unrestricted submarine warfare the world wars and the development of nuclear weaponry With chapters on the coronation and jubilee reviews at Spithead the submarine in novels and films as well as coverage of the Royal Navy s and civilian views of submarines and submarine warfare this book gives a comprehensive view of the British regard or lack of it for the submarine Through the examination of the British relationship with submarines since 1900 it is possible to see changing patterns in acceptance and tensions between different sub cultures both civil and maritime Since 1900 the meaning constructed around submarines has changed as the submarine has progressed along a road from perdition as the weapon of the weaker power and morally weaker power too to a form of redemption as a major capital unit This book will be essential for naval historians students and those interested in aspects of submarine development and use **A History of Submarine Warfare Along the Jersey Shore** Joseph G. Bilby, Harry Ziegler, 2016-08-22 The ingenious people of the Garden State were instrumental in the early development of the submarine The first American submarine sank off Fort Lee in 1776 and the first successful one adopted by the U S Navy was invented by Paterson s John Holland at the end of the nineteenth century Today the only surviving Union Civil War submarine built in Newark sits in the National Guard Militia Museum in Sea Girt In 1918 the technology pioneered there was turned against the Jersey Shore when U 151 went on a one day ship sinking rampage A World War II U boat offensive torpedoed numerous ships off the coast leaving oil soaked beaches strewn with wreckage The authors reveal the remarkable history of submarines off the New Jersey coastline **The Merchant Navy: Submarines in British waters ; Auxillary craft's fight against the submarines ; The fishermen's ordeal ; The sea transport of the first million troops ; Merchant seamen and the**
