Prevention of Substance Use Zili Sloboda, Hanno Petras, Elizabeth Robertson, Ralph Hingson, 2019-03-01 This volume provides a serious examination of substance use prevention research and practice as components of the continuum from health promotion through to prevention and health care in sub groups and in the general population Extensive background chapters provide portals into the evolution of the field and the cutting edge research being conducted on the etiology epidemiology and genetics of substance use and abuse The global nature and health burden of substance use and abuse incorporates assessments of the serious problems related to the prevention of legal substance use i e alcohol and tobacco and how lessons learned in those arenas may apply to the prevention of illicit substance use Research and practice chapters detail a range of effective evidence based programs policies and practices and emerging prevention interventions from the literatures on the family and school contexts in addition to innovations involving mindfulness and the social media Continued advancements in substance use prevention research practice training and policy are projected Included among topics addressed are Progression of substance use to abuse and substance use disorders The tobacco prevention experience a model for substance use prevention Policy interventions intended and unintended influences on substance use Qualitative methods in the study of psychoactive substance use Use of media and social media in the prevention of substance use Supporting prevention science and prevention research internationally The array of research accomplishments and real world methods presented in *Prevention of Substance Use* merits the attention of a variety of researchers and practitioners including public health professionals health psychologists and epidemiologists

Psychology of Substance Abuse André Luiz Monezi Andrade, Denise De Micheli, Eroy Aparecida da Silva, Fernanda Machado Lopes, Bruno de Oliveira Pinheiro, Richard Alecsander Reichert, 2021-04-15 This book is a guide for psychologists working with substance users in different healthcare settings from private clinical practice to larger health institutions and community services It presents a comprehensive overview of the different aspects involved with substance use disorders from a psychological perspective from prevention to recovery The volume offers an integrative view about neurobiological behavioral and psychosocial aspects related to becoming a substance user shows how psychological assessment tools can be used to diagnose substance use disorders describes how different kinds of psychotherapy can be applied in the treatment of substance use disorders and presents a range of evidence based clinical and social interventions designed for both prevention and treatment of substance use disorders Apart from covering the whole range of services related to the prevention diagnosis and treatment of substance use disorders the volume also shows how these issues can be approached from different theoretical perspectives within psychology such as Behavioral and Cognitive Psychology Neuropsychology Existential Psychology Phenomenology Psychoanalysis Analytical Psychology Community and Social Psychology Psychology of Substance Abuse Psychotherapy Clinical Management and Social Intervention will be a useful resource for psychologists and other health professionals

working with substance users as well as to undergraduate and graduate students looking for a comprehensive introduction to the psychology of substance abuse *The Oxford Handbook of Substance Use and Substance Use Disorders* Kenneth J. Sher, 2016-07-13 Substance use and substance use disorders SUDs have been documented in a number of cultures since the beginnings of recorded time and represent major societal concerns in the present day *The Oxford Handbook of Substance Use and Substance Use Disorders* provides comprehensive reviews of key areas of inquiry into the fundamental nature of substance use and SUDs their features causes consequences course treatment and prevention It is clear that understanding these various aspects of substance use and SUDs requires a multidisciplinary perspective that considers the pharmacology of drugs of abuse genetic variation in these acute and chronic effects and psychological processes in the context of the interpersonal and cultural contexts Comprising two volumes this Handbook also highlights a range of opportunities and challenges facing those interested in the basic understanding of the nature of these phenomena and novel approaches to assess prevent and treat these conditions with the goal of reducing the enormous burden these problems place on our global society Chapters in Volume 1 cover the historical and cultural contexts of substance use and its consequences its epidemiology and course etiological processes from the perspective of neuropharmacology genetics personality development motivation and the interpersonal and larger social environment Chapters in Volume 2 cover major health and social consequences of substance involvement psychiatric comorbidity assessment and interventions Each chapter highlights key issues in the respective topic area and raises unanswered questions for future research All chapters are authored by leading scholars in each topic The level of coverage is sufficiently deep to be of value to both trainees and established scientists and clinicians interested in an evidenced based approach **Basic and Clinical Science of Substance Related Disorders**

Dieter Ladewig, 1999-01-01 This book presents the latest findings originating from the symposium on Basic and Clinical Science of Substance Related Disorders held in May 1998 in Basel Its emphasis lays on the importance of the interdisciplinary aspect of addiction research The book gives specialists like neurobiologists social scientists health promoters and other professionals dealing with drug addiction an insight into the diversity of the topic s biological psychological and social dimensions *Basic and Clinical Science of Substance Related Disorders* D. Ladewig, A.

Riecher-Rössler, N. Sartorius, 1999-08-03 This book presents the latest findings originating from the symposium on Basic and Clinical Science of Substance Related Disorders held in May 1998 in Basel Its emphasis lays on the importance of the interdisciplinary aspect of addiction research The biological section deals with the hypothalamic pituitary adrenocortical HPA system and its effects on the vulnerability to drug addiction Early developmental stages of substance abuse are discussed from an epidemiological standpoint in the second part A third section takes up aspects of psychosocial consequences of heroin treatment comorbidity research the integration of drug therapy and psychotherapy into dependence management the prevention of alcoholic relapse and clinical addiction research between care responsibility and basic research Finally the

historical development of the ideologies of individual blame is looked at in the last part The book gives specialists like neurobiologists social scientists health promoters and other professionals dealing with drug addiction an insight into the diversity of the topic s biological psychological and social dimensions

Monthly Catalog of United States Government Publications ,1990 **Monthly Catalogue, United States Public Documents** ,1990 Substance Use & Misuse ,2000 Substance Abuse Joyce H. Lowinson,Pedro Ruiz,1981 Foundations of Addictions Counseling Dave Capuzzi,Mark D. Stauffer,2008 Foundations of Addiction Counseling explores the techniques and skills a new practitioner will need in the real world with chapters by expert scholars while providing a thorough review of the theory history and research of addiction counseling This comprehensive text offers prospective counselors the tools and strategies they will need for working with general and special populations including assessment tools strategies for outpatient and inpatient treatment information about maintenance and relapse prevention and counseling strategies for couples families children and adolescents and recovering addicts

An Examination of a Substance Abuse Treatment Typology and the Influence of Gender Nina D. Uziel-Miller,2000 The current study utilized empirical data from The National Drug Abuse Treatment System Survey DATSS a national survey of outpatient substance abuse treatment programs in order to develop a typology of substance abuse treatment programs and assess the influence of gender on programming trends General types of programs were identified with regards to gender client needs rates of service utilization and staff and program characteristics Results indicated that many programs provided at least a minimum range of ancillary services to a broad based population of clients Several groups of programs demonstrated fairly high rates of service utilization Results indicated that level of service utilization and level of client need were in fact fairly well matched at a number of programs though the relationship between rates of service utilization and client need varied across program types Results support the literature on women s increased level of need and demonstrated that clients at programs with a larger percentage of women in treatment were in fact more likely to receive intensive broader based interventions than clients at other programs Overall this study provided a thorough examination of a typology of outpatient substance abuse treatment in the United States today Our research provides insight into the relationship between gender client service and programming characteristics across different types of substance abuse programming Public policy recommendations are made based on these data regarding future substance abuse treatment research and programming for both men and women
