Indigenous Bodies Jacqueline Fear-Segal, Rebecca Tillett, 2013-09-30 This interdisciplinary collection of essays by both Natives and non Natives explores presentations and representations of indigenous bodies in historical and contemporary contexts Recent decades have seen a wealth of scholarship on the body in a wide range of disciplines *Indigenous Bodies* extends this scholarship in exciting new ways bringing together the disciplinary expertise of Native studies scholars from around the world The book is particularly concerned with the Native body as a site of persistent fascination colonial oppression and indigenous agency along with the endurance of these legacies within Native communities At the core of this collection lies a dual commitment to exposing numerous and diverse disempowerments of indigenous peoples and to recognizing the many ways in which these same people retained and or reclaimed agency Issues of reviewing relocating and reclaiming bodies are examined in the chapters which are paired to bring to light juxtapositions and connections and further the transnational development of indigenous studies

Shakespearean Subversions Richard Hillman, 1992 This book traces manifestations of trickery and subversion across the Shakespearean canon in such a way as to bring together several diverse strands of critical thought By isolating a principle of subversiveness that cuts across the standard categories Richard Hillman shows a relation amongst otherwise disparate aspects of the plays and delineates broad patterns of development In *Shakespearean Subversions* discussion of such obviously subversive character types as the Clown the Fool and the Machiavellian villain is incorporated into a broader concern with disruptive energy not as a thematic motif but as a generative influence on textual production Hillman suggests that this influence may be exercised paradoxically through the counter claims of social order The book situates this central idea in relation to a number of theoretical positions including New Historicism Cultural Materialism and Bakhtin's concept of the carnivalesque The primary conceptual anchor is supplied by recent anthropological interpretations of the folklore figure known as the Trickster The subsequent plan of the book is wide ranging there is discussion of almost every play with some unusual associations across boundaries of genre and a number of radically unconventional specific interpretations *Shakespearean Subversions* will appeal to specialists and to any reader with a serious interest in Shakespearean drama
