The Way of the Linguist Steve Kaufmann, 2005-11 The Way of the Linguist A language learning odyssey It is now a cliché that the world is a smaller place We think nothing of jumping on a plane to travel to another country or continent The most exotic locations are now destinations for mass tourism Small business people are dealing across frontiers and language barriers like never before The Internet brings different languages and cultures to our finger tips English the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication But historically periods of cultural and economic

domination have never lasted forever Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures As citizens of this shrunken world would we not be better off if we were able to speak a few languages other than our own The answer is obviously yes Certainly Steve Kaufmann thinks so and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia Why do not more people do the same In his book *The Way of The Linguist A language learning odyssey* Steve offers some answers Steve feels anyone can learn a language if they want to He points out some of the obstacles that hold people back Drawing on his adventures in Europe and Asia as a student and businessman he describes the rewards that come from knowing languages He relates his evolution as a language learner abroad and back in his native Canada and explains the kind of attitude that will enable others to achieve second language fluency Many people have taken on the challenge of language learning but have been frustrated by their lack of success This book offers detailed advice on the kind of study practices that will achieve language breakthroughs Steve has developed a language learning system available online at www.thelinguist.com *The Modern Language Journal* ,1929 Includes section Reviews

Language I Am S. C. W. Coleman-Roush,2018-10-18 Hello my name is Stephen and I am a linguist Some say that we are born into our vocation while others say that it is something developed over time In the case of language acquisition both are true We are all inherently language learners being a highly adaptable and intuitive social species Language will and always has taken on new and exciting forms that continuously change and adapt to new environments Some languages die while others flourish and change into something new Each language has its own rhythm its own method of thought and its own fundamental values In a sense Language is everything language is life I have studied languages ever since I was in homeschool before 5th grade My mother taught me to read write and speak Latin Greek and Hebrew I read Beowulf in old English as a child While I can remember almost nothing of these languages the dedication instilled in me has carried on I studied at the Defense Language Institute in Monterey CA I learned and collaborated among thousands of people in my field I learned that everyone is an individual and we all are interested by different languages Not everyone however is interested in what is commonly thought of as language The oral visual and auditory skills of communication are possessed by all but a passion of few If your language is in a vocation such as science medicine or something else then you are probably not interested in the textbook definition of language studies Instead such people focus on a different sort of language acquisition and study If you see other languages foreign to you as a novelty then this book is not for you I will not be sharing my knowledge of language acquisition in areas of vocations often referred to as jargon but will instead be imparting my skill in the auditory visual and spoken word Please take my words with a grain of salt Do not believe everything you re told but instead study for yourself Give into your creative individuality and search out your own answers All advice is free but time is finite I hope that you enjoy this book **Stories from Exceptional Language Learners Who Have Achieved Nativelike**

Proficiency Katarina Mentzelopoulos, Zoltán Dörnyei, 2022-10-25 It is generally understood that most language learners beyond a certain age are unlikely to ever reach nativelike proficiency in their second language. However, there exists a unique population of gifted adult learners who do triumph against all odds and achieve nativelike proficiency, and their learning experiences have thus far remained a largely untapped gold mine. The companion to *Lessons from Exceptional Language Learners Who Have Achieved Nativelike Proficiency*, this volume presents the autobiographical learning stories of 30 such exceptional individuals, opening a narrative window into their learning experiences. This rich corpus of success stories reveals the many steps of these language learning journeys and the learners' pathways to success. A fascinating and readable collection of personal stories, this volume will be of interest to non-specialist language learners as a motivational primer for their own studies, as well as researchers working in language learning psychology who will find the unique database of learner narratives a useful tool for future research.
