Advanced Hypnosis and Self Hypnosis** Tony Gaschler,2018-06-25 Visualize how you are

hypnotizing a person who then with great relish devours yummy apples although they are actually potatoes Or your subject is convinced that the color YELLOW is actual called RED You can be assured of an astonished audience admiring your new abilities and skills As a byproduct the hypnotizer slowly becomes aware of his or her private and professional success and the associated limitless confidence and self efficacy that the new and powerful abilities generate He or she is admired and held in high esteem life is good With the self help method MODERN HYPNOSIS TECHNIQUE Tony Gaschler has combined only tried and proven hypnosis techniques used in many highly interesting hypnosis experiments into a method You will learn about modern hypnosis techniques and methods as they are practiced around the globe today no prior knowledge is required you will learn everything you need to know to be able to hypnotize others successfully and you will learn this in a systematic and gradual manner After many years of research and based on the successes of numerous hypnosis techniques from the world over the specialized author and hypnosis expert Tony Gaschler developed this unique easy method leading to quick success You learn SELF HYPNOSIS that can serve to improve your life in so many ways to eliminate bothersome habits and characteristics such as nervousness listlessness lack of energy lack of drive smoking excessive weight tensions etc and even some emotional inhibitions You will also learn ADVANCED SELF HYPNOSIS techniques used among others to increase performance eliminate pain or influence others These advanced techniques are practiced by athletes politicians traditional healers and on radio TV at events etc Nonmedical practitioners and physicians can also benefit from the Modern Hypnosis Technique Of course you can also use your acquired skills to astonish and surprise your family friends and acquaintances as the excerpts from the following three experiments shows An EXPERIMENT with FALSE MEMORY Hand the test subject a piece of paper listing a very long number For example something similar to this 164839244312673 778241983711893 Tell the subject Please read and memorize this number Once I take the piece of paper away after a few seconds you will have memorized the entire number and can write it down Then take the piece of paper away from the test subject and say And now you are able to write down the entire number without errors just from memory Remember Each suggestion must be canceled by a counter suggestion An EXPERIMENT with FALSE PERCEPTION Tell the VP the following while handing him or her a peeled onion I am giving you here a nice juicy apple Eat it you will love its taste and it s good for you The subject will think of the onion as an apple and actually eat it like an apple A counter suggestion is here not required since no effect continues after the action has been completed An EXPERIMENT with POST HYPNOSIS You can also use a subject and post hypnosis an action that is to be carried out at a later time Example Call me at 8 in the evening to tell me that you cannot visit me tomorrow When I ask you why you cannot come you tell me you don t have time Remember All these experiments must have a clearly defined effective start and end of a suggestion Never allow an effect to continue after the hypnosis without first canceling with a counter suggestion The listed experiments were just a small excerpt from the many possible hypnosis techniques Moreover you can also use your own creative ideas to develop and carry out new and interesting experiments The
