The Big Nickle:

The Big Nickel Calder Willingham, 1975 *The Right Mistake* Walter Mosley, 2009-09-29 From New York Times bestselling author Walter Mosley the third collection of Socrates Fortlow tales a thought provoking exploration of wickedness and what s to be done about it Seattle Times Living in south central L A Socrates Fortlow is a sixty year old ex convict still strong enough to kill men with his bare hands Filled with profound guilt about his own crimes and disheartened by the chaos of the streets Socrates calls together local people of all races and social stations and begins to conduct a Thinkers Club where all can discuss life s unanswerable questions Infiltrated by undercover cops and threatened by strain from within the Thinkers Club doesn t have it easy But simply by debating racial authenticity street justice and the possibility of mutual understanding Socrates and his unlikely crew actually begin to make a difference *The Right Mistake* is Walter Mosley at his most incisive In turns outraged and affectionate it offers a profoundly literary and ultimately redemptive exploration of the possibility of moral action in a violent world

The Twenty-first Century African American Novel and the Critique of Whiteness in Everyday Life E. Lâle Demirtürk, 2016-05-25 This book examines the post 9 11 African American novels developing a new critical discourse on everyday discursive practices of whiteness The critique of everyday life in the racial context of post 9 11 American society is important in considering diverse forms of the lived experiences and subjectivities of black people in the novels They help us see that African American representations of the city have political significance in that the neo urban novel explores the possibility of a black dialogic communication to build a transformative social change Since the real power of Whiteness lies in its discursive power the book reveals the urgency to understand not only how whiteness works in everyday life in American society But it also explores how to cultivate new possibilities of configuring and performing Blackness differently as a response to the post 9 11 configurations of the culture of fear to produce new ways of interactional social relations that can eventually open up the space of critical awareness for white people to work against rather than reinforce discursive practices of White supremacy in everyday life This book explores how the multiple subjectivities and transformative acts of blackness can offer ways of subverting the discursive power of the white embodied practices What defines post 9 11 America as a nation that is consumed by the fear of racialized terrorists is its roots in the fear of uncontrollable Blackness as excess and ominous threat in the domestic terrain through which the ideology of White supremacy has constructed for governing through Whiteness African American urban novels published in the twenty first century respond to the discursive power of normative Whiteness that regulates black bodies selves and lives This book demonstrates how black people contest white dominant social spaces as sites of black criminality and exclusion in an attempt to re signify them as the sites of black transformative change through personal and grassroots activism through their performativity of Blackness as an agential identity formation in their interpersonal urban social encounters with white people Hence the vulnerable spaces of Whiteness in interracial urban encounters as it pervasively addresses those moments of

transformative change enacted by Black characters in the face of the discursive practices of whiteness in the everyday life. These novels celebrate multifarious representations of black individuals who are capable of using their agency to subvert White discursive power in finding ways in their personal and grassroots activism to transform the culture of fear that locates Blackness as such in an attempt to make a difference in the American society at large. **Real Hauntings 5-Book Bundle**

[Official Reports of the Debates of the House of Commons of the Dominion of Canada](#) Canada. Parliament. House of Commons, 1916. [Once Bitten: A Canadian Werewolf Novella](#) Mark Leslie, 2026-02-24 He came to New York as a writer with a dream. What he became was something out of a nightmare. It's the summer of 2003, and twenty-two-year-old Michael Andrews has finally escaped his small Ontario mining town for the city of his Spider-Man daydreams. But the wolf attack on a lonely highway changes everything. Now he's navigating Manhattan with powerfully sharp senses well beyond normal human limits, a transformation he can't control, and a beautiful woman he's terrified to let close. By day, Michael shelves books in a Greenwich Village shop, using his uncanny ability to read emotions to connect with customers. Those same abilities have given this previously undateable book nerd an unexpected confidence enough to win the attention of Rachel, an aspiring actress whose kindness draws him in. But when the full moon rises, he loses himself to his alter ego, a six-foot grey wolf. Haunted by guilt and longing for connection, Michael must decide whether his curse will define him or if he can transform it into something more. Some curses can't be outrun. The only question is what you do when they catch up. This origin story of the Canadian Werewolf series is told through current-day 2017 bookends of a prologue and epilogue, a timeline that follows immediately after **Only Monsters in the Building**.
