## **The Binding Of Leviathan Conservatism And The Future:**

**The Binding of Leviathan** William Waldegrave,1978 The author tackles these questions in a book designed to show that there is a distinctive Conservative tradition and that it offers a solid base for dealing with Britain s problems in the next decades

*Stretching the Constitution* Andrew Blick,2019-03-07 How far did the European Union EU referendum result of 23 June 2016 really justify and necessitate the policies executed in response to it What are the implications of that vote and its prolonged aftermath for the United Kingdom UK constitution What other challenges does our political system face This book seeks to answer these questions It considers from a constitutional perspective the way in which the decision to leave the EU was taken and then implemented discussing in particular the role of Parliament It includes a close analysis of the referendum legislation and relevant Commons debates Adapting methods from applied history the author considers the wider implications of Brexit by assessing a series of proposals for constitutional reform produced in the UK since 1900 He addresses features of the UK system including referendums representative democracy Parliament devolution and the executive from both an historic and contemporary point of view The book assesses other issues that do not arise directly from Brexit but that have constitutional implications and a global aspect to them They include political applications of the Internet and climate change Finally the author makes a series of proposals for reforms that will help the democratic system of the UK to adapt to its changing environment

**Principles and Politics in Contemporary Britain** Mark Garnett,2013-10-28 This book shows the importance of political ideas in policy making and demonstrates the extent to which pragmatic considerations preclude the imposition of rigid ideological programmes It charts the decline of the postwar British consensus the changing face of both the Conservative and Labour parties under the long shadow of Thatcherism and the growing emergence of single issue policies such as environmentalism and feminism With an extensive bibliography and suggested seminar and essay topics Principles and Politics can be used on any course which focuses on contemporary British politics as well as having general appeal to those interested in looking at the contemporary political and ideological debate in the context of wider issues and trends This second edition is completely revised and updated

**Ideological Heritage Vol 2** William Howard Greenleaf,2013-10-08 First Published in 2004 This study of the British Political Tradition will be complete in four volumes of which The Ideological Heritage is the second This is an attempt to show how the basic tension between libertarianism and collectivism is reflected in arguments of state how our three main political doctrines have both stimulated and reacted to the growth of government intervention and the proliferation of public agency and how they have dealt with the problems of individual liberty involved

**Conservative thinkers** Mark Garnett, Kevin Hickson,2013-07-19 This book outlines and evaluates the political thought of the Conservative Party through a detailed examination of its principal thinkers from Harold Macmillan to the present Traditionally the Conservative Party has been regarded as a vote gathering machine

rather than a vehicle for ideas This book redresses the balance through a series of biographical essays examining the thought of those who have contributed most to the development of ideas within the party The chapters benefit from archival research and interviews with leading Conservatives The recent revival of Conservative fortunes makes the book particularly timely The book begins with an introductory chapter explaining the role of ideology in the Conservative Party It then traces the political thought of the Conservative Party through its principal theorists since the 1930s These are Harold Macmillan R A Butler Quintin Hogg Enoch Powell Angus Maude Keith Joseph the traditionalists Maurice Cowling T E Peter Utley Peregrine Worsthorne Shirley Letwin and Roger Scruton Ian Gilmour John Redwood and David Willetts The book concludes with an overall assessment of the political thought of the Conservative Party and the relevance of past debates for contemporary Conservatism The book will be of considerable interest to academics and non academics alike for those who have a special interest in the Conservative Party but also for any student of contemporary British Politics
