*Murder* Lena Voss,2026-03-14 On March 15 44 BCE Julius Caesar was stabbed twenty three times on the floor of the Theatre  
of Pompey by men who called themselves liberators many of whom he had pardoned promoted or considered friends The  
assassination was meticulously planned yet its political consequences were precisely the opposite of what its architects  
intended Rather than restoring the Republic the killing of Caesar accelerated its final destruction This book examines the  
Ides of March not as a single dramatic event but as the endpoint of a decades long psychological and institutional crisis  
Drawing on Plutarch Suetonius Cicero s letters and contemporary archaeological and numismatic evidence it reconstructs  
the inner lives of the key conspirators Brutus Cassius Decimus tracing how personal grievance philosophical conviction and  
political fear combined to produce collective action against the most powerful man in the Roman world The narrative  
explores what the assassination reveals about the psychology of political violence how men of education and principle  
convince themselves that murder serves justice how loyalty fractures under institutional stress and how the elimination of  
one leader can destabilize an entire system of power built around personal authority It also examines Caesar himself the  
calculated ambiguity of his behavior toward republican institutions his deliberate cultivation of dependency among rivals and  
the question of whether he understood and perhaps accepted the risk he was running     The Cambridge Bible for Schools
