## **They Too Cast Shadows:**

*Grasping Shadows* William Chapman Sharpe, 2017-08-04 What is in a shadow Menace seduction or salvation Immaterial but profound shadows lurk everywhere in literature and the visual arts signifying everything from the treachery of appearances to the unfathomable power of God From Plato to Picasso from Rembrandt to Welles and Warhol from Lord of the Rings to the latest video game shadows act as central players in the drama of Western culture Yet because they work silently artistic shadows often slip unnoticed past audiences and critics Conceived as an accessible introduction to this elusive phenomenon *Grasping Shadows* is the first book that offers a general theory of how all shadows function in texts and visual media Arguing that shadow images take shape within a common cultural field where visual and verbal meanings overlap William Sharpe ranges widely among classic and modern works revealing the key motifs that link apparently disparate works such as those by Fra Angelico and James Joyce Clementina Hawarden and Kara Walker Charles Dickens and Kumi Yamashita Showing how real world shadows have shaped the meanings of shadow imagery *Grasping Shadows* guides the reader through the techniques used by writers and artists to represent shadows from the Renaissance onward The last chapter traces how shadows impact the art of the modern city from Renoir and Zola to film noir and projection systems that capture the shadows of passers by on streets around the globe Extending his analysis to contemporary street art popular songs billboards and shadow theatre Sharpe demonstrates a practical way to grasp the dark side that looms all around us **Five Books of S. Irenaeus** Saint Irenaeus (Bishop of Lyon), 1872 **Constructing Shadows** Peter Petschek, Siegfried Gass, 2012-11-05 Trees are ideal sources of shade where they cannot be used their function is taken over by tents pergolas and pavilions In the context of global warming shade providing construction is becoming an increasingly important building task In Part One of this book specialists in the field present the typical forms of shade providing construction as well as the design approach associated with each Part Two presents easily consultable overviews of 140 plants that have proven to be effective givers of shade in temperate subtropical and tropical zones Part Three presents thirty built projects by celebrated architects and landscape architects from five continents These constructions illustrate a wide variety of functions and scales and cover various climatic zones and cultural contexts All structures are constructionally and systematically analyzed with texts true to scale drawings and photographs from their foundations to their connections and the shadows they cast **Old and New Astronomy** Richard Anthony Proctor, 1892 **Photo Forensics** Hany Farid, 2019-02-26 The first comprehensive and detailed presentation of techniques for authenticating digital images Photographs have been doctored since photography was invented Dictators have erased people from photographs and from history Politicians have manipulated photos for short term political gain Altering photographs in the predigital era required time consuming darkroom work Today powerful and low cost digital technology makes it relatively easy to alter digital images and the resulting fakes are difficult to detect The field of photo forensics pioneered in Hany Farid's lab at Dartmouth College restores some trust to photography In this book

Farid describes techniques that can be used to authenticate photos He provides the intuition and background as well as the mathematical and algorithmic details needed to understand implement and utilize a variety of photo forensic techniques Farid traces the entire imaging pipeline He begins with the physics and geometry of the interaction of light with the physical world proceeds through the way light passes through a camera lens the conversion of light to pixel values in the electronic sensor the packaging of the pixel values into a digital image file and the pixel level artifacts introduced by photo editing software Modeling the path of light during image creation reveals physical geometric and statistical regularities that are disrupted during the creation of a fake Various forensic techniques exploit these irregularities to detect traces of tampering A chapter of case studies examines the authenticity of viral video and famously questionable photographs including Golden Eagle Snatches Kid and the Lee Harvey Oswald backyard photo
