The Law of Common Assurances William Sheppard,1669 What is a God? Jaco Gericke,2017-01-26 In this book Jaco Gericke is concerned with different ways of approaching the question of what according to the Hebrew Bible a god was assumed to be As a supplement to the tradition of predominantly linguistic historical literary comparative social scientific and related ways of looking at the research problem Gericke offers a variety of experimental philosophical perspectives that aim to take a step back from the scholarly discussion as it has unfolded hitherto in order to provide a new type of worry when looking at the riddle of what the biblical texts assumed made a god divine Consisting of a brief history of philosophical interpretations of the concepts of whatness and essence from Socrates to Derrida the relevant ideas are adapted and reapplied to look at some interesting metaphysical oddities arising from generic uses of elohim el eloah as common noun in the Hebrew Bible As such the study seeks to be a prolegomenon to all future research in that instead of answering the question regarding a supposed nature of divinity it aims to complicate it beyond expectation In this way a case is made for a more nuanced and indeterminate manner of constructing the problem of what it meant to call something a god **The Law of Common Assurances, Touching Deeds in General: Viz.
