Think of a Beaver Karen Wallace,1995-02 Pictures and rhythmic text provide a close up look at the habits and homes of North American beavers **Think of Beaver** Karen Wallace,1995-01-01 Pictures and rhythmic text provide a close up look at the habits and homes of North American beavers **Report of the Game Commissioner and the Museum Director** Saskatchewan. Dept. of Railways, Labour and Industries. Furs and Game Branch,1914 *Annual Report of the Department of Agriculture of the Province of Saskatchewan* Saskatchewan. Department of Agriculture,1913 Cree Narrative Richard J. Preston,2002-08-06 Based primarily on the oral accounts of John Blackned Cree Narrative offers a detailed account of traditional Cree society The result is an integrated picture of Cree thought feelings and beliefs relating to living on and with the land For this expanded reissue of his pioneering work in cognitive anthropology Richard Preston has added four new chapters He contextualizes his original research and provides historical and social context for the Waskaganish area during the time of his fieldwork in the 1960s He also includes a biography of John Blackned and a new selection of Blackned s stories that vividly portray Cree experience at the end of the fur trade period in the early nineteen hundreds To step into the sensibility of another culture and portray it wisely and with love is a rare accomplishment Richard Preston achieved this in the original edition of Cree Narrative published in a limited fashion by Canada s National Museum of Man in 1975 and continues it here Carpenter ,1923 Academic Literacy and the Nature of Expertise Cheryl Geisler,2013-11-05 The first full length account integrating both the cognitive and sociological aspects of reading and writing in the academy this unique volume covers educational research on reading and writing rhetorical research on writing in the disciplines cognitive research on expertise in ill defined problems and sociological and historical research on the professions The author produced this volume as a result of a research program aimed at understanding the relationship between two concepts literacy and expertise which traditionally have been treated as quite separate phenomena A burgeoning literature on reading and writing in the academy has begun to indicate fairly consistent patterns in how students acquire literacy practices This literature shows furthermore that what students do is quite distinct from what experts do While many have used these results as a starting point for teaching students how to be expert the author has chosen instead to ask about the interrelationship between expert and novice practice seeing them both as two sides of the same project a cultural historical professionalization project aimed at establishing and preserving the professional privilege The consequences of this professionalization project are examined using the discipline of academic philosophy as the site for the author s investigations Methodologically unique these investigations combine rhetorical analysis protocol analysis and the analysis of classroom discourse The result is a complex portrait of how the participants in this humanistic discipline use their academic literacy practices to construct and reconstruct a great divide between expert and lay knowledge This monograph thus extends our current understanding of the rhetoric of the professions and examines its implications for education Hunter-trader-trapper ,1919 **Navigator**
