## **Thinking Politics Thesis:**

**Thinking Politics** Jeffrey Puryear, 1994 Because of Latin America's long history of military juntas analysts who have studied regime change in the region have focused on political and military elites In the recent case of Chile however the success of democratic transition can be credited in large part to the remarkable influence of intellectuals involved in public affairs In *Thinking Politics* Jeffrey Puryear examines this unprecedented role played by intellectuals in Chile's return to democracy *Thinking Politics* provides thorough coverage of an important but neglected topic by a uniquely qualified observer Through his work with the Ford Foundation Jeffrey Puryear had an unparalleled opportunity for an outside agent to witness the development of the social scientists of Chile and their impact on democratization He tells the story well he analyzes it in a way that could be relevant to other cases and he presents the policy implications for support of the social sciences in less developed countries in a convincing manner Paul W Drake University of California San Diego This first rate work is accurate original and compelling It addresses an important topic the relationship between ideas and politics that has seldom been analyzed in Latin America JosA c JoaquA n Brunner Ried Facultad Latina Americana de Ciencias Sociales Santiago Chile
