Thinktanks Of The New Right:

Think Tank Traditions Diane Stone, Andrew Denham, 2004-06-19 Think tank traditions is a follow up to the critically acclaimed monograph Think Tanks across Nations Manchester University Press 1998 edited by the same authors which was widely acknowledged as a ground breaking work in the comparative study of think tanks The book looks at the historical role and contemporary significance of think tanks in the West including Europe the United States and Canada as well as considering their activities in China Eastern Europe and Argentina In so doing the book provides a broad based and in depth analysis of the role of think tanks in the processes of economic liberalization and democratization **Ideas and Think**

Tanks in Contemporary Britain Michael David Kandiah, Anthony Seldon, 2013-10-23 This study looks at the influence of ideas and think tanks in Britain contemplating how ideas have shaped politics and society The purveyors of ideas for change the think tanks are examined and academics and participants views are recorded in a number of interviews **The New**

Right Humanitarians Tom Barry, Deb Preusch, 1986 **Think Tanks Across Nations** Diane Stone, Andrew Denham, Mark Garnett, 1998 How political parties choose their leaders and why they choose the leaders they do are questions of fundamental importance in contemporary parliamentary democracies This book examines political leadership selection in the two dominant parties in recent British political history exploring the criteria and skills needed by political leaders to be chosen by their parties While the Conservative Party's strong record in office owes much to its ability to project an image of leadership competence and governing credibility the Labour Party has struggled with issues of economic management leadership ability and ideological splits between various interpretations of socialism The authors argue that the Conservatives tend towards a unifying figure who can lead the Party to victory whereas the Labour Party typically choose a leader to unite the party behind ideological renewal Exploring the contemporary political choices of leaders like Boris Johnson and Jeremy Corbyn this book offers a timely insight into the leadership processes of Britain's major political players

Ideas and Think Tanks in Contemporary Britain Michael Kandiah, Anthony Seldon, 1996 This study looks at the influence of ideas and think tanks in Britain contemplating how ideas have shaped politics and society The purveyors of ideas for change the think tanks are examined and academics and participants views are recorded in a number of interviews **The**

Cultural Marxism Conspiracy A.J.A. Woods, 2026-04-21 Cultural Marxism is one of the far right's favorite buzzwords But despite its currency the meaning and origins of the term are rarely investigated This book uncovers the bizarre story of the cult leaders right wing intellectuals and White House officials who believe a coterie of left wing scholars and students is plotting to undermine Western civilization Drawing on years of archival research and using the tools of critical theory A J A Woods reveals how a group of German thinkers known as the Frankfurt School was recast as the sinister orchestra tors of a global conspiracy Instead of simply debunking this conspiracy theory Woods offers a sharp analysis and critique of the political movements that have declared war on all that passes for Cultural Marxism in the US the UK and Brazil Only when

we understand the practices and weaknesses of those reactionaries committed to fighting this illusory threat a conflict causing real world damage can we effectively resist This is an essential book for anyone seeking to understand the ideological currents shaping politics in the twenty first century

The New Right, 1981 **Data Center's New Right Monitor Update**, 1984 **New Right, New Racism** Paul Gordon, Francesca Klug, 1986 *The Centre-left and New Right Divide?* Steve Smith, 1998 The book offers solutions to the difficulties of moving from philosophical generalities to specific policies From these findings it evaluates the differences and similarities between the centre left and New Right

The Family and the New Right Pamela Abbott, Claire Wallace, 1992 The ideas of the New Right on the family have a populist appeal Governments in Britain and the USA have introduced measures influenced by New Right thinking Abbott and Wallace trace and critically evaluate the writers intellectuals and moral movements anti abortion Christian pro family who have contributed to these philosophical political and economic attitudes towards the family Particular attention is paid to the arguments that women should return to the home and to the homophobic tendencies within the New Right

The Right Road? Andrew Moore, 1995 The Australian Right has attracted little historiographical attention and has until now been a neglected area of study Individual organisations have been quite well documented and these sources have been used to provide evidence for an argumentative interpretation of right wing political groups and activities in Australia since 1788 The Australian Right emerges from and reflects a diverse tradition It embraces the typical Nazi brandishing fists and Swastika or the anti Asian skinheads of the film Romper Stomper to the modern econocrat who opposes the values of the French Revolution with impressive sounding jargon It has included priests polemicists and politicians broadcasters and bureaucrats soldiers and solicitors thugs and technocrats It has involved people from the margins crackpots and other sin the political mainstream especially Burkean conservaties Paradoxically it is a heterogeneous movements that has advocated homegeneity It is synoptic rather than an exhaustive attempt to analyse the philosophies and actions of right wing groups The book does however proceed chronologically and covers right wing politics from nineteenth century Anglo Australian conservatism through the anti Bolshevism and fascism encountered by world events 1917 1930s and analyses postwar right wing movements in Australia

The Republican War Against Women Tanya Melich, 1998 Powerful and persuasive this updated edition of *The Republican War Against Women* not only illustrates how these actions cost the party the 1992 and 1996 presidential electionsit shows why the only hope for its future is to adopt a vigorous new vision

Public administration, 1994 *The Challenge for Unions* John Wishart, 1992 Analysis of the program of the New Right in Australia how it will affect workers and what trade unionists can do about it Also presents an argument in favour of trade unions The author is a former trade union leader and active environmentalist Includes a bibliography

The Economist, 1993 **Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards**, 2000 **The Alternative Press Annual**, 1985 *The Reagan Presidency* W.
