particular benefit from emulating some of the practical policies developed by the Organisation for Security and Co operation in Europe to build and strengthen democratic governance and the rule of law in member states SADC would also do well to take a closer look at ECOWAS s border approach to dealing proactively with political crises in the West African region The book compares the vision of the SADC s regional security integration scheme set out in various regional agreements with its reality Then it places SADC s security integration efforts within the greater picture of the transformation of Africa s security architecture Lastly it reviews SADC s efforts in a global comparative perspective by looking at the efforts of other regional organisations such as the OSCE and the ASEAN Publisher description Power Politics and Peace Policies Thomas Ohlson,1998 The aim of this comparative study is theory building Propositions indicators and research questions are derived from a typology of explanatory variables The research design is applied to eight conflict resolution processes in Southern Africa An analysis of bivariate covariation variable interaction and causal patterns in the cases is used to transform the typology into a preliminary theory
