Touch Of His Hand

Charles Dickens

Touch Of His Hand:

The Touch of a Lighter Hand Costa John, 2006-06-20 Imagine if through the practiced art of meditative touch you discovered a molten stream of psychic energy just below the surface of your hands A mystical gateway to everyone around you that revealed their deepest beliefs their most intimate secrets A window into the future that reduced all time to the eternal present moment A source of immense power to heal or to harm Daniel Michaels develops mystical abilities that are somehow connected to his hands Drawn into a world where terrorism and love become inextricably linked he is periodically haunted by a recurring dream of imminent danger Does it speak of the past the future or the frightening figments of a vivid imagination In this riveting drama author Costa John weaves the beauty of Africa the tension of Middle East politics the meaning of dreams and the inspiring notion that a spiritual connection binds us all into a romantic political thriller that keeps readers guessing until the last page What People Are Saying THE TOUCH OF A LIGHTER HAND Costa John 2005 Costa Johns intricately woven tale touches on the nuances of the Israeli Palestinian conflict at a deeply human level So often these clashes are reduced to bloody television coverage and statistics In this story the lives and intense passions of the key characters are inextricably connected Within the grey areas of right and wrong the righteous and the rebellious is a world that Costa John describes with acute sensitivity and insight His style of writing creates well drawn rounded characters Women play a powerful role in his novel Too often in the genre of thriller their role is victim a mounting series of dead and mutilated bodies If not dead they are deadly Whether tough and career minded or siren and seducer Johns female characters are also strong flawed irrational passionate fierce and caring His principal character Daniel Michaels is an extraordinary man His hands are imbued with energy that he describes as strangely able to project and receive life His mystical power is latent but heightened by his increasing mastery of Aikido and the philosophy behind this martial art But it extends beyond physical energy He has paranormal abilities His recurring dream grows on the reader and tugs at the edge of the sub conscious With mounting unease as we track the time frame of the book it leads us inexorably to a revelation and a sense of déjà vu His soul mate Liann Zellan also has the power to heal Evident from the first moment we meet them they should and must be together John keeps them tantalisingly apart politically and emotionally They are both attracted and troubled by each others standpoints His Arabic blood African heritage and American upbringing become a source of conflict as Liann struggles with a love she believes is at odds with her deep commitment to the Israeli cause The plot takes the reader from Chicago to San Francisco from the bush of Southern Africa to the Middle East Here John masterfully personifies Middle Eastern conflict where desires and goals seem tantalisingly congruent but are more often at violent odds The villains of Costa Johns thriller run the dark side from warring factions feeding expediently off the conflict to parasites who benefit from the richness of their hosts whatever side they may be on For any South African reader Michaels involvement in the Angolan war as a member of the South African Army in the 70s will resonate strongly For American readers this chapter in Africas history may evoke

hauntingly similar memories of foreign conflicts in Korea Vietnam and Iraq But he also draws a vivid picture of African
 wildlife that reinforces the romance the wonder the sights and the sounds of Africa The plot races to a climax th
