**Stanley J. Slote**

## **Weeding Library Collections:**

**Weeding Library Collections** Stanley J. Slote, 1989 Based on the author's ongoing research, field observations and interviews with library professionals, this edition thoroughly updates the previous one and simplifies the process of weeding. Slote shows librarians how to identify the core collections versus the weedable items. After reviewing current weeding practices and standards, he discusses a variety of traditional and computer-assisted methods for weeding. His approach is based on the new understanding of the relationship between in-library use and circulation use. A section dealing with reference noncirculating collections has been added, and the chapter on computer-assisted weeding has been completely rewritten to help librarians streamline the weeding process. All forms have been redesigned. **Weeding Library**

**Collections--II** Stanley J. Slote, 1982 Library science textbook on the weeding of documents in library collections includes a literature survey and forms/questionnaires used for weeding. Bibliography **Crash Course in Weeding Library**

**Collections** Francisca Goldsmith, 2015-11-02 Weeding is a perennial challenge for librarians. This book will help you rise to the task by offering you basic instructions, including information on new formats and digital collections. Weeding is often difficult; who can easily decide to discard books and other materials that someone may someday want to borrow? But weeding is essential to keeping your collection healthy and relevant. Perfect for all types of libraries and for both paraprofessionals and librarians unfamiliar with modern weeding methods, this practical guide offers clear guidance that can help you cope with the sometimes paralytic fear and distaste that can accompany a must-do task. Each of the book's chapters treats a specific concern, for example, weeding electronic collections. Practical matters related to collection maintenance through material and online resource weeding are addressed, as are policy and procedure, documentation, and communication planning and best practices. You'll read about weeding ethics, using vendor-provided weeding tools, and floating collections. The book also shares advice on training volunteers as weeding assistants and on communicating with library stakeholders about collection maintenance. By showing you how to make weeding a normal part of your library's routine, this book will help you provide your community with a healthier, better-circulating and more valuable collection.
