*Truth Or Consequences* Millard J. Erickson, 2001-09-25 Millard J Erickson examines the intellectual roots of postmodernism identifies its most prominent exponents and critiques its foundational assumptions with clarity and evenhandedness

Most Evil Is Done by Good People Who Do Not Know That They Are Not Good Ferd L. Wagner, 2010-05 This book takes the view that Christian truth is the basis for all answers to social issues and that there are not two opposing but equal answers within Christian truth that are equally valid and equally acceptable to God Any so called truth or right that circumvents or undercuts the required sacrifices disciplines and self denial demanded by God in any given social or moral issue ceases to be truth ceases to be right the moment it becomes a force unto itself outside of or independent of the Scripturally required obedience Human history has shown over the millennia that when the letter and spirit of God s laws are not obeyed the truth is abused nations become confused and people are used Many of our political and social issues are rooted in our misplaced belief that tolerance inclusion equal respect for unequal truth and live and let live is the way to greater peace and prosperity They are all wrong Each individual government and nation is judged by their response to Christ The Christian nation or one which ascribes to being one is tasked to set the Christian standard as every nation s point of reference It is the Christian s duty to show that the valid rule of God s law the letter of God s law and the spirit of God s law are superior to any other alternative standard The biggest obstacle to Christianity today is the undisciplined misinformed and unfaithful lifestyles of professing Christians The Church has become so indoctrinated in its aversion to any form of discrimination that it has placed a higher priority on keeping the peace by compromising than by keeping the truth by discriminating By accepting a false peace and rejecting a hard truth that resists compromise it begets neither peace nor truth

**Information and Consciousness** John M. Budd, 2024-08-27 Information and Consciousness An Exploration connects information and consciousness in ways that will open up potential inquiry into what information is how it works and its relationship to human consciousness Information has been taken to mean many things in the past the risk has been that if it is taken to mean everything it may mean nothing In this book information s definition is restricted to the inclusion of meaning and truth in discursive action Consciousness for its part has frequently been taken to refer to the material workings of the brain Recent inquiry has led to a broadening to embrace the human body and the environment in extended consciousness Using these two conceptions the connections between information and consciousness are explored The book includes a unique definition of information that centers on discursive action meaning and truth the role of sign systems semiotics and how it is connected to what information is a critique of the standard model of consciousness and an investigation of alternatives an alternative to

embodied extended consciousness as a preferred model and an exploration of its role with respect to information and more. The book aims to make connections between what informs humans and what humans are conscious of. Anyone who is concerned with how people identify what informs will be interested in the entirety of the work. The author provides readers with the foundation they need to understand the most common conceptions of what information and consciousness are. Information and Consciousness also looks into the future for enquiry. Presenting a different way of conceiving information and consciousness, the book shows a way forward for enquiry and education.

*A Philosophy of Ideals* Edgar Sheffield Brightman, 1928

*Legal Indeterminacy and Constitutional Interpretation* J.J. Moreso, 2013-04-17

The main purpose of this book is to offer a logical analysis of legal propositions especially of constitutional propositions. This analysis shows the relationship between truth conditions of legal propositions and the problem of indeterminacy. Where the law is indeterminate, legal propositions lack truth values. The background of this approach is the philosophical debate between realism and antirealism. The book deals with the notions of legal norms and legal systems and provides an analysis of the notion of legal indeterminacy and its relation to gaps, contradictions, and the vagueness of legal concepts. It shows also that the simple model of a legal system is not sufficient to account for the complexity of legal propositions referring to legal systems of some degree of maturity. Several notions from legal dynamics are presented in order to bring to light the importance of concepts like applicability or hierarchy for the determination of the truth value of a legal proposition. Thus the primacy of constitution becomes a central idea in the theoretical reconstruction of most contemporary legal systems; a conceptual explanation of this idea is presented and some conclusions from that explanation are drawn. Finally a particular conception of constitutional interpretation is proposed. Special attention is paid to the relationship between interpretation and legal indeterminacy and more specifically to the problem of the discretion enjoyed by the organs entrusted with applying the constitution and also to the several theses that have been discussed controversially in the context of constitutional interpretation such as the relevance of the intentions for the interpretation of the constitution and for the justification of judicial review.

Common Sense Faith Patrick J. Brennan, 2013

What is it about Jesus, the church, the sacraments, and prayer that inspires, motivates, and encourages us? Can we doubt and follow our conscience and still be faithful Catholics? Why is forgiveness essential to conversion? What does it mean to be holy? Fr. Patrick Brennan addresses these questions and helps us to see how our faith can breathe life into what matters most in our lives and the lives of those we love.
