Fantastic Lives Martin Harry Greenberg,1981 Personal often controversial glimpses of the real world of sci ence fiction by some of its most prominent citizens The book presents a rare opportunity for the reader of sci ence fiction to share in the creative process with nine highly original and creative writers Philip Jos Farmer emphasizes his tripartite nature to bring us to the realization that The human species is a web of flesh spun by some vast spider The shaking of the web in a distant time and a distant place trembles us Harlan Ellison writes on perhaps his most controversial story I Have no Mouth and I Must Scream R A Lafferty provides his unique version of the history and meaning of modern science fiction Katharine MacLean takes us on a wondrous tour of her early life sharing the impact of science fiction on the mind of a young girl Barry N Malzberg combines previously published writings and original material in a piquant discussion of his career Mack Reynolds discusses his work his social and politi cal philosophy and growing up as the son of radical parents Norman Spinrad describes how commercial factors impinge upon publication decisions and his own experiences in the mar ketplace Margaret St Clair relates her career in science fiction and her mixed feelings about science fiction and its place in American society A E van Vogt extends a look at the ideas that have fascinated him obsessed him and for many years pre vented him from writing science fiction All of these authors have been on the cutting edge of change in the field and each of them has sought to move science fiction beyond its pulp origins *The Science Fiction and Heroic Fantasy Author Index* ,1978 **St. James Guide to Science Fiction Writers** Jay P. Pederson,1996 Concise discussions of the lives and principal works of prominent science fiction authors written by subject experts **Science Fact and Science Fiction** Brian Stableford,2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of

all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed
