Hoch,2013-11-26 On a remote jungle island a scientist toys with cryogenics and brain transplants Horseshoe Island lies just a few miles off the coast of Baja California Mexico impossibly far from the laws of the United States Here a doctor named Hobbes has built his labs to perform experiments on bodies cryogenically frozen for two decades or longer He plans to heal those whom the medicine of the past was helpless to save and his experiments may hold the key to endless life or eternal damnation Earl Jazine of the newly formed Computer Investigation Bureau is sent to Horseshoe Island to investigate the good doctor Posing as a photographer he is invited to document the island s most audacious experiment yet a brain transplant from a dead man s body to a healthy living one But when members of the research team begin disappearing Jazine learns that on Horseshoe Island there is no law natural or unnatural that cannot be broken by Dr Hobbes *The Frankenstein Factory* is the third book in the Carl Crader Mysteries but you may enjoy reading the series in any order     **The Frankenstein Factory** Edward D. Glut,1984     *The Fellowship of the Hand* Edward D. Hoch,2013-11-26 Two computer cops race to protect a presidential election against tampering Radiation leaks in Chicago Assassination attempts on Venus Bombings in Washington DC Any crime that involves a computer falls under the jurisdiction of New York s Computer Investigation Bureau and in the far off days of the mid twenty first century more criminals rely on digital tools than ever before For Earl Jazine and Carl Crader technology is not just their beat it is their best weapon in the war against mayhem Today mayhem takes the form of a threat to the nation s electronic voting system Thousands of ballots have been programmed into the FRIDAY 404 election machine pledging votes to Jason Blunt and Stanley Ambrose two men who aren t even running for president Jazine and Crader have only a few weeks until election day but they must put an end to this audacious fraud before democracy itself goes up in a puff of pixelated smoke *The Fellowship of the Hand* is the second book in the Carl Crader Mysteries but you may enjoy reading the series in any order     **Science Fact and Science Fiction** Brian Stableford,2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings *Science Fact and Science Fiction* examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works

speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed
