To Nowhere And Back:

End Time Keith Korman, 2015-08-25 Keith Korman envisions a dark future for America in this chilling apocalyptic thriller. What is happening to the country and the planet? A government bio lab experiment goes hideously wrong, infecting people with scientifically programmed madness. Random kidnappings of women and girls proliferate throughout the land. Some people suddenly succumb to horrifically virulent viruses while others become able to read minds. Mysteriously summoned to confront these frightening questions, three people are thrown together on a bizarre cross-country quest: Cheryl Gibson, an LA cop; Billy Howahkan, a Lakota Sioux with seeming supernatural gifts; and Bhakti Singh, a distinguished space scientist. This unlikely group must track down a pair of children with extraordinary powers, children who will determine humanity's fate: obliteration or salvation. As the three set out across America, a blood-dimmed tide is unleashed. Anarchy, terror, and death stalk the land. In Keith Korman's *End Time*. *The Dublin Magazine* Seumas O'Sullivan, 1928 [Northern Lights](#) Colette Lane, 2023-11-28 Go along on a journey with the author as she explores the exciting and mysterious realms of the supernatural and psychic phenomena: UFOs and extraterrestrial activity. This story is based on true events. **Evaders** E.C. Scullion, 2021-08-19 PART TWO IN THE TOM HOLT TRILOGY Twelve years ago, Clare Buchanan stepped off a London bus and disappeared. Hiding out in South America, former security manager Tom Holt has unearthed the secret behind her disappearance: that his former employer, Capricorn, is the man responsible. In London, young journalist Nash Akinyemi resolves to investigate the truth behind Clare's story and, in doing so, make her career. Talented thief Becca Wylde has worked for Capricorn her whole life, but now she must choose between staying loyal to her family or helping the man she once betrayed. Together, Holt, Nash, and Becca must risk everything to expose Capricorn's secrets to the world. From the streets of London to the shores of Chile to the tropical islands of Panama, the race is on to expose the truth before it is buried for good. [The English Review](#), 1914 **Holding Onto Air** Michele DeMarco, PhD, 2024-01-09 A top mental health writer, trauma researcher, and survivor illuminates the dual nature of loss: the science behind it and the art of transforming it with a breakthrough book and truly holistic approach. After experiencing two rare heart attacks at the age of 33 and a third a decade later, DeMarco knows trauma intimately. Trauma breaks your relationship with time by upending your expectations, fracturing your memories and identity, and destroying your innocence. With poignant wisdom and refreshing insight, DeMarco explodes traditional myths of resilience and shows what it takes to thrive through any of life's challenges. DeMarco situates meaningful challenge and loss specifically in the context of lost innocence and challenges common notions that we can think our way out of despair and back to a normal, happy life when the unimaginable shatters it. Leveraging advances in emotion science, somatic psychology, neuroscience, and trauma, *Holding Onto Air* brings the body and spirit into the solution as much as the mind, and so presents a truly integrated, whole-person approach to recovering from lost innocence and building resilience. It also makes spirit accessible for anyone of any background or belief, or no aligned belief. More than a rudimentary

map for navigating grief and loss rocky terrain with tired tropes and shop worn strategies DeMarco offers a unique and trusted guide for an arduous journey every human being will have to face the realization of evil pain or mortality that occurs after a person experiences trauma

Petroleum Age and Service Station Merchandising, 1928 *Hidden in Plain Sight (Bubble Head, 1)* Martin G. Selbrede, Young physicist Jenna Wilkes has done the impossible and the whole scientific world is shaking on its pillars Could it be that conventional science has misunderstood the very fabric of the universe Could there be infinitely more to it than anyone has ever guessed Could science's whole concept of reality be unreal Jenna's discovery drills into the heart of reality itself and that's why the Establishment is so determined to suppress it How far will they go to hide the truth Big name scientists the Pentagon and shady politicians plot and scheme to silence her one way or another They did it once seven years earlier This time the stakes are incalculably higher Jenna has more than just a scientific revolution in her hands If the Establishment can't stop her the whole world will be changed in ways not even Jenna can imagine
