Training Camp:

The Citizen Soldiers John Garry Clifford, 2014-12-16 The Citizen Soldiers explores the military reform movement that took its name from the famous Business Men's Military Training Camps at Plattsburg New York It also illuminates the story of two exceptional men General Leonard Wood the rambunctious and controversial former Rough Rider who galvanized the Plattsburg Idea with his magnetic personality and Grenville Clark a young Wall Street lawyer The Plattsburg camps strove to advertise the lack of military preparation in the United States and stressed the military obligation every man owed to his country Publicized by individuals who voluntarily underwent military training the preparedness movement rapidly took shape in the years prior to America's entry into the First World War Far from being war hawks the Plattsburg men emphasized the need for a citizen army rather than a large professional establishment Although they failed in their major objective universal military training their vision of a citizen army was largely realized in the National Defense Act of 1920 and their efforts helped to establish selective service as the United States preferred recruitment method in World War I World War II the Korean War and the Vietnam War Featuring a new preface by the author this new edition of a seminal study will hit shelves just in time for the World War I Centennial *Catalogue of Publications Issued by the Government of the United States* United States.
