Training The Technical Work Force:

Training the Technical Work Force Anthony P. Carnevale, Leila J. Gainer, Eric R. Schulz, 1990-04-13 Presents the findings of a nationwide study addressing the training needs of America's technical workforce Describes the nature and role of training within today's technologically shifting workplace and sets forth specific guidelines for conducting effective training within a variety of institutions

Building America's Skilled Technical Workforce National Academies of Sciences, Engineering, and Medicine, National Academy of Engineering, Division of Behavioral and Social Sciences and Education, Policy and Global Affairs, Board on Science Education, Board on Higher Education and Workforce, Board on Science, Technology, and Economic Policy, Committee on the Supply Chain for Middle-Skill Jobs: Education, Training, and Certification Pathways, 2017-06-04 Skilled technical occupations defined as occupations that require a high level of knowledge in a technical domain but do not require a bachelor's degree for entry are a key component of the U.S. economy In response to globalization and advances in science and technology American firms are demanding workers with greater proficiency in literacy and numeracy as well as strong interpersonal technical and problem solving skills However employer surveys and industry and government reports have raised concerns that the nation may not have an adequate supply of skilled technical workers to achieve its competitiveness and economic growth objectives In response to the broader need for policy information and advice *Building America's Skilled Technical Workforce* examines the coverage effectiveness flexibility and coordination of the policies and various programs that prepare Americans for skilled technical jobs This report provides action oriented recommendations for improving the American system of technical education training and certification

Technical Education and Training Wisconsin. Governor's Task Force on Technical Education, David M. Eberhardt, Philip L. Neuenfeldt, 1999 *The Learning Enterprise* Anthony P. Carnevale, 1993-05 Explains the relationship between job related learning individual opportunity and the competitiveness of employer institutions Takes a close look at the employer based training and development systems in general and the difference between small and large employers in particular Graphs tables and drawings

Resources in Education, 1990-10 **Building a Better NASA Workforce** National Research Council, Division on Engineering and Physical Sciences, Aeronautics and Space Engineering Board, Space Studies Board, Committee on Meeting the Workforce Needs for the National Vision for Space Exploration, 2007-07-22 The Vision for Space Exploration VSE announced by President George W. Bush in 2004 sets NASA and the nation on a bold path to return to the Moon and one day put a human on Mars The long term endeavor represented by the VSE is however subject to the constraints imposed by annual funding Given that the VSE may take tens of years to implement a significant issue is whether NASA and the United States will have the workforce needed to achieve that vision The issues range from short term concerns about the current workforce's skills for overseeing the development of new spacecraft and launch vehicles for the

VSE to long term issues regarding the training recruiting and retaining of scientists and engineers in house as well as in industry and academia Asked to explore science and technology S T workforce needs to achieve the nation s long term space exploration the Committee on Meeting the Workforce Needs for the National Vision for Space Exploration concluded that in the short term NASA does not possess the requisite in house personnel with the experience in human spaceflight systems development needed to implement the VSE But the committee acknowledges that NASA is cognizant of this fact and has taken steps to correct it primarily by seeking to recruit highly skilled personnel from outside NASA including persons from industry and retirees For the long term NASA has to ask if it is attracting and developing the talent it will need to execute a mission to return to the Moon and the agency must identify what it needs to do to attract and develop a world class workforce to explore other worlds A major challenge for NASA is reorienting its human spaceflight workforce from the operation of current vehicles to the development of new vehicles at least throughout the next decade as well as starting operations with new rockets and new spacecraft The committee emphasizes further that when evaluating its future workforce requirements NASA has to consider not only programs for students but also training opportunities for its current employees NASA s training programs at the agency s various field centers which are focused on NASA s civil service talent require support to prevent the agency s internal skill base from withering Furthermore NASA faces the risk that if it fails to nurture its own internal workforce skilled personnel will be attracted to other government agencies and industry Building a Better NASA Workforce Meeting the Workforce Needs for the National Vision for Space Exploration explains the findings and recommendations of the committee **Workforce Training in a Time of Technological Change** United States.
