Unexpected Pleasures Lauryl Tucker, 2022-01-15 What are the sources and the effects of the pleasurable feeling of power that genre gives us What happens to that power when conventionality tips into parody In this book Lauryl Tucker explores the connection between genre parody and queerness in twentieth century British fiction Teasing out the parodic sensibility of writers including Virginia Woolf Elizabeth Bowen Sam Selvon Dorothy Sayers Stella Gibbons and Zadie Smith Unexpected Pleasures offers an innovative reading of works that seem to excessively obey the rules of genre By oversupplying the pleasurable sense of knowledge and the illusion of predictive power that genre confers these works play with readerly expectation in order to expose and queer a broader set of assumptions about desire resolution and futurity Unexpected Pleasures expands on a burgeoning critical interest in genre as an interpretive tool and further diversifies the archive and methodology of queer critique Gathering a surprising group of writers together it reveals new throughlines between middlebrow and highbrow and among modernist mid century and contemporary literature This book will interest scholars of modernist and contemporary British literature as well as readers interested in narrative and queer theory

Kant's Deontological Eudaemonism Jeanine M. Grenberg,2022-07-28 In this book Professor Jeanine Grenberg defends the idea that Kant s virtue theory is best understood as a system of eudaemonism indeed as a distinctive form of eudaemonism that makes it preferable to other forms of it a system of what she calls Deontological Eudaemonism In Deontological Eudaemonism one achieves happiness both rationally conceived as non felt pleasure in the virtually unimpeded harmonious activity of one s will and choice and empirically conceived as pleasurable fulfilment of one s desires only via authentic commitment to and fulfilment of what is demanded of all rational beings making persons as such one s end in all things To tell this story of Deontological Eudaemonism Grenberg first defends the notion that Kant s deontological approach to ethics is simultaneously and indeed foundationally and most basically teleological She then shows that the realization of an aptitude for the virtuous fulfilment of one s obligatory ends provides the solid basis for simultaneous realization of happiness both rationally and empirically conceived Along the way she argues both that Kant s notion of happiness rationally conceived is essentially identical to Aristotle s conception of happiness as unimpeded activity and that his notion of happiness empirically conceived is best realized via an unwavering commitment to the fulfilment of one s obligatory ends
