The Ford Foundation At Work:

The Ford Foundation at Work Richard Magat, 2012-12-06 This report originated in a request to me from the Board of Trustees of the Ford Foundation in the summer of 1975 The trustees aware that there would be a change of leadership at the Foundation before 1980 wanted to make a running start in the process of planning for the future Their first step was to make a study of the great national and international needs that might lie ahead in the next decade and a half and where and how the Foundation might address them They sought advice both within the Foundation and outside it and they engaged in long discussions of their own Although the exercise was directed toward planning for the future the trustees also wished to review our past not exhaustively but at least well enough to have a clear sense of what the Foundation had been up to in the quarter century of its existence as a national and international institution In this connection the chairman of our board Alexander Heard asked for a canvass of the Ford Foundation's experiences successes and failures during the last twenty five years focused on the broad objectives sought the means pursued to achieve them and the results The Ford Foundation Dwight MacDonalD, 1989 Thirty years since it was first published Macdonald's masterful book on the Ford Foundation remains the only book length account of this institution that has been published Despite the calls for a book carrying on the story from 1956 on the part of Richard Magat and McGeorge Bundy that book has yet to be written In his stimulating introduction to this new edition Francis Sutton suggests why this is so The Foundation he observes has never again aroused as much public interest as it did in the years Macdonald describes The announcement that a new program would be launched with the riches that 90 percent of the Ford Motor Company's stock would bring captured the attention of the media all across the country Its sheer size was astounding in 1954 the Ford Foundation spent four times as much as the Rockefeller Foundation and ten times as much as the Carnegie Corporation Its expenditures were very large in relation to the budgets of the institutions that looked to it for help Consequently the American public waited expectantly to see what this huge foundation would do But the Ford Foundation was not only big it was controversial in those years and inspired activism in the media Congressional investigations and political wrath Macdonald nicely captures the American ambivalence toward large bureaucratic organizations which the Ford Foundation epitomizes with its own language and one might argue its own values Sutton points out that Macdonald's writing also sets a model for foundation history and indeed philanthropic history with a poised ironic detachment that has remained rare His introduction points out the main themes of Macdonald's book and examines the extent to which they continue to illumine the foundation in the years since this book was first published It looks at how well the Foundation has addressed the objectives it set for itself and nicely captures the giant changes that this giant foundation has experienced through the 1960s and 1970s to the present day *The Ford Foundation Report*, 1992

Building Democracy in Contemporary Russia Sarah Henderson, 2003 Can foreign donors help build new democracies In the 1990s public and private organizations such as USAID and the Soros Foundation poured huge amounts of money and expertise into Russia to help build the dream of a vibrant democratic society Sarah L Henderson argues that despite the altruistic intentions of foreign assistance agencies and domestic activists foreign aid designed to spur civic growth has had unintended consequences Drawing on extensive field work survey research and work experience for several funding agencies in Moscow in the late 1990s Henderson focuses on donor efforts to support the emerging community of nongovernmental organizations and in particular on efforts to build a functioning women s movement in Russia Her intimate knowledge of Russia s growing NGO community informs a worrisome finding foreign aid has made a tremendous difference but not in altogether expected or positive ways New Russian civic groups serve either the needs of an indigenous clientele or the demands of the foreign aid bureaucracy but rarely both Henderson s research and experience show that while aid has kept a fledgling civic community alive it is a civic community that is disconnected from its own domestic audience The book suggests that large flows of foreign aid have in some ways damaged the long term prospects for democratization in Russia
