**The Fourth Coming** Francis Keith Robins, 2024-04-26 In a time of dire need as climate change conflict and economic upheaval imperil our existence and our mental well being deteriorates from not utilising our minds as God intended Francis Keith Robins introduces a groundbreaking approach to saving humanity reshaping our thought processes through mathematics In his book *The Fourth Coming* Robins provides a detailed step by step guide to unlocking our inherent mathematical potential His vision is to create a society that is inclusive equal and peaceful one that aligns with God s desire for us He advocates for a paradigm shift where shared mathematical models and systematic thinking supplant the ineffective classes of governments and institutions currently jeopardizing our planet This revolutionary approach aims to alter the trajectory of human history in a manner that aligns with divine intentions Robins theories described as a work of mathematical brilliance offer a refreshingly simple yet profound solution to consciousness which as noted by *New Scientist* remains one of the most elusive and significant mysteries in science and philosophy Furthermore he concludes that the introduction of religion by God was a response to humanity s failure to use their brains as He intended
