**The Vedic Experience** Raimundo Panikkar, 1994 One of the most stupendous manifestations of the Spirit is undoubtedly that which has been handed down to us under the generic name of the Vedas The Vedas are still too much neglected not only in the world at large but also in their country of origin this Vedic anthology will make direct and fruitful knowledge of the Vedas available to a wider range of people than the small elite of pandits and Indologists This anthology collects the most crucial texts of the Indian Sacred Scriptures in all more than 500 newly translated into contemporary English Dr Panikkar's principle has been to select and place together texts so as to offer a selection of texts that cover the full range of The Vedic Experience and at the same time to show how they manifest the universal rhythms of nature history and Man Excerpts are taken from the oldest hymns such as the Rig Veda from the Brahmanas the Aranyakas or Forest Treatises and finally the Upanishads which represent the mystical and philosophical culmination of the Vedas This is a book for meditation for reading public and private as well as for thorough study at this wellspring of human wisdom It should moreover facilitate that meeting of East and West so long desired and delayed and now so imperative

**The Coming of Consumer Society**, 2025-10-27 The present volume adds momentum to the ongoing discourse on consumerism in India and offers a fresh perspective by arguing that India is not just a consumer market but a consumer society in the making There is no consensus on the birth place and context of a consumer society amongst historians And for scholars of contemporary social life consumer societies till recently were held to be akin to societies in the late stage of capitalism or those having completed their transition from feudalism to post industrialism However given the processes of globalization and liberalization of new global economic order consumerism as an ideology a world view and a practice is fast coming of age in other societies across the globe Hence the earlier intellectual lexicon stands replaced by a new consumer epistemology signalling the coming of new consumer societies in hitherto unimagined locales such as India The varied essays in the volume develop the themes of consumption brands representation and identity construction in some new settings so far unexplored in the Indian context for instance ethnic brands such as Fabindia tribal art in new digitized forms fashion and so on The strength of the book lies in traversing not just fresh sites and objects of consumer desire but also in bringing together a host of multidisciplinary and theoretical perspectives such as Marxism feminism postmodernism and post colonialism The book would be of interest to students and researchers of sociology anthropology politics cultural studies and media studies

**Austin** Martin Gustafsson, Richard Sørli, 2011-12-01 These new essays on J L Austin s philosophy constitute the first major study of his thought in decades Eight leading philosophers join together to present a fresh evaluation of his distinctive work showing how it can be brought to bear on issues at the top of today s philosophical agenda such as scepticism and contextualism the epistemology of testimony the generality of the conceptual and the viability of the semantics pragmatics distinction The contributors offer in depth interpretations of Austin s views and demonstrate why his work deserves a more central place in mainstream philosophical discussion than it currently has The volume also contains a substantial introduction that situates Austin s thought in its original intellectual milieu and provides an overview of the many different ways in which his ideas have influenced later developments in philosophy and elsewhere
