Adams, 2013-11-22 While secondary texts on Paul Virilio typically see no way out of the tempo and techno dystopia he articulates Occupy Time engages the events of Occupy Wall Street to fix attention on what such readings circumvent Virilio's elusive theory of resistance Meaning Systems and Mental Health Culture, James T. Hansen, 2016-02-01 The creation of meaning is a central feature of human life The full spectrum of experience from joyful devoted living to unbearable psychological suffering is orchestrated by the meanings that people endorse and create Meaning Systems and Mental Health Culture Critical Perspectives on Contemporary Counseling and Psychotherapy examines the intersection of meaning systems mental health culture and counseling and psychotherapy By viewing mental health care through the lenses of culture and history James T Hansen argues that a defining element of mental health culture throughout various eras is the relative value placed on meaning systems Contemporary mental health care with its idealization of symptom based diagnostics biological reductionism and the medical model severely devalues meaning systems This devaluation has led modern counselors and psychotherapists to largely abandon the factors that should be central to their work Meaning Systems and Mental Health Culture weaves together empirical historical cultural and philosophical perspectives to raise awareness of the need for counseling and psychotherapy to revalue meaning systems even while operating within a culture that disregards them Prophecy without Contempt Cathleen Kaveny, 2016-03-07 American culture warriors have plenty to argue about but battles over such issues as abortion and torture have as much to do with rhetorical style as moral substance Cathleen Kaveny reframes the debate about religion in the public square by focusing on a powerful stream of religious discourse in American political speech the Biblical rhetoric of prophetic indictment Important and path breaking The place of religious discourse in the American public square has received much attention for many years but the role of prophetic indictment has been largely overlooked Kaveny's book not only opens a new front in these debates but starts the conversation with a rich analysis of the history and function of prophetic discourse Kathleen A Brady Commonweal A monumental achievement and a much needed addition to the academic and societal conversation about the role of religion in public life In precise prose and with careful analysis Kaveny challenges some of the leading theorists about public discourse and puts forward her own theories all accompanied by a storyteller's gift for anecdote and a philosopher's talent for explication Michael Sean Winters National Catholic Reporter **The Iliad of Homer** Homer, 1928 **Kant's Transcendental Proof of Realism** Kenneth R.
