Spirit House:

The Spirit House William Sleator, 2015-08-25 A foreign exchange student comes to live with Julie's family for a year setting off a frightening chain of events Julie isn't thrilled about her parents' decision to sponsor a foreign exchange student from Thailand Not only is the stranger going to live with them for a year but Julie is convinced he'll be a nerd and will embarrass her at school But when a tall handsome super cool guy named Bia arrives Julie is suddenly the envy of all her girlfriends Dominic Julie's 11 year old brother is also thrilled to have Bia around the house So to make the guest feel at home in America Dominic builds a traditional Thai spirit house in the backyard Overnight Bia seems to undergo a major personality change He's mean and spiteful and lies about everything He also seems terrified of something or someone Has Dominic's construction somehow invoked a vengeful spirit Is Bia the bearer of luck so bad it could harm Julie and her family The Spirit House William Sleator, 1992 When Bia comes to visit Julie's family from Thailand he's nothing like they expected William Sleator is the author of *The Duplicate and Strange Attractions* **Melanesian Odysseys** Lisette Josephides, 2008 In a series of epic self narratives ranging from traditional cultural embodiments to picaresque adventures Christian epiphanies and a host of interactive strategies and techniques for living Kewa Highlanders PNG attempt to shape and control their selves and their relentlessly changing world This account transcends ethnographic particularity and offers a wide reaching perspective on the nature of being human Inverting the analytic logic of her previous work which sought to uncover what social structures concealed Josephides focuses instead on the cultural understandings that people make explicit in their actions and speech Using approaches from philosophy and anthropology she examines elicitation how people create their selves and their worlds in the act of making explicit and mimesis how anthropologists produce ethnographies to arrive at an unexpected conclusion that knowledge of self and other alike derives from self externalization rather than self introspection

BOOK JACKET **The Talaings** Robert Halliday, 1917 **Handbook of the Sociology of Morality** Steven Hitlin, Stephen Vaisey, 2010-10-17 Human beings necessarily understand their social worlds in moral terms orienting their lives relationships and activities around socially produced notions of right and wrong Morality is sociologically understood as more than simply helping or harming others it encompasses any way that individuals form understandings of what behaviors are better than others what goals are most laudable and what proper people believe feel and do Morality involves the explicit and implicit sets of rules and shared understandings that keep human social groups intact Morality includes both the shoulds and should nots of human activity its proactive and inhibitive elements At one time sociologists were centrally concerned with morality issues like social cohesion values the goals and norms that structure society and the ways individuals get socialized to reproduce those concerns In the last half century however explicit interest in these topics has waned and modern sociology has become uninterested in these matters and morality has become marginalized within the discipline But a resurgence in the topic is happening in related disciplines psychology neurology philosophy and anthropology and in the wider national

discourse Sociology has much to offer but is not fully engaged in this conversation Many scholars work on areas that would fall under the umbrella of a sociology of morality but do not self identify in such a manner nor orient their efforts toward conceptualizing what we know and should know along these dimensions The Handbook of the Sociology of Morality fills a niche within sociology making explicit the shared concerns of scholars across the disciplines as they relate to an often overlooked dimension of human social life It is unique in social science as it would be the first systematic compilation of the wider social structural cultural cross national organizational and interactional dimension of human moral understood broadly thought feeling and behavior *Thailand*, 2003 **Globalization and Transformations of Local Socioeconomic**
