Stenner,2022-06-30 This open access volume features a data rich portrait of what young adults think about the world It

collects the views of students in higher education from various cultural regions religious traditions linguistic groups and

political systems This will help readers better understand a generation that will soon rise to power and influence The analysis

focuses on 12 countries These include Canada China Finland Ghana India Israel Peru Poland Russia Sweden Turkey and the

USA It employs a mixed methods approach invested in the study of an individual s views and values using state of the art

methodology including the innovative Faith Q sort This instrument is new to the field and developed for assessing the

entanglement of subjective views and personal beliefs The study also incorporates a comprehensive values survey as well as

other survey tools that look into people s social capital media use social values alignment and subjective well being Each

chapter is co authored by an international team of scholars with research interest in the particular topic The rationale for this

principle is the need to engage individuals from different cultural backgrounds scholarly disciplines and methodological and

substantive competences In the end this innovative approach presents an informed empirically grounded analysis of the

values and worldviews of the future generation It sheds an important light on how changes in the religious landscape are
