MISSION

MISSION #1
Periscope - 1st Part

CLASSIFIED

BACKGROUND
The periscope you've been assigned has been specially placed in your room to let you spy from the opening of the top window in the next room. This allows you to see their clothes and witness conversations. You can spy these items because light always reflects off a mirror at the same angle as it hits the mirror. **Think of a mirror as the corner.**

OBJECTIVE The mirrors inside are set at a specific 45 degree angle so when light enters the top window of the room it bounces off the mirror and the opening is seen through the second window. When you look through the eyepiece, a second mirror bounces and out the top pane.

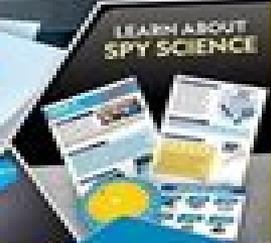

MISSION OBJECTIVE
Using your periscope to spy on the next room, what can you see? Can you see a "spy" who is looking in on you? Can you see the image when you look through the eyepiece? Write down the "background" information.
