## Topics Of Life:

**Aristotle. On Youth and Old Age, Life and Death, and Respiration 1-6** Giouli Korobili, 2022-06-21 This book is devoted to the last part of Aristotle's collection of short treatises known today as the *Parva Naturalia* i.e. the treatise *On Youth and Old Age on Life and Death on Respiration*. In the three main sections of the book the author offers a translation, a commentary and a thorough analysis of this work. The author argues in favour of the unity of the work and contextualises its ideas within Aristotle's corpus and the medical tradition of his time. After an Introduction to the nature of the work and its significance for the history of natural philosophy and science, a new English translation follows along with a detailed commentary of Chapters 1-6 which combines philosophical discussion with philological observations. The book includes four interpretive essays which tackle problems related to the whole treatise on a more philosophical basis, including questions about the structure and unity of the work, the organisation of the material, Aristotle's methodological principles, his aims and target audience, as well as the relevance of his selected themes to the thematic agenda of some Hippocratic writings. This book is of interest to students and researchers in Aristotle's psychophysiology and his views about the embodied mind, as well as to anyone concerned with the history of natural philosophy and science, more generally. [Life and Narrative](#) Brian Schiff, A. Elizabeth McKim, Sylvie Patron, 2017-01-17 *Life and Narrative* examines the perennial mystery of how people encounter, manage and inhabit a self and a world of their own and others' creation, and the ramifications of these creations. From both literary and social science perspectives, this volume grapples with the process of how life and narrative interact with each other. **Life and Moral Education in Greater China** John Chi-Kin Lee, Stephen Yam-wing Yip, Raymond Ho-Man Kong, 2021-03-29 Arguing for life, moral and values education as a bedrock for the original goals of school education, this monograph explores how life and values education is conceptualised and imparted in Greater China. Under a globalized, transnational and technological world where there has been an increase in people's mobility in information and cultural exchanges, there is also a growing emphasis on personal and professional ethics. Against this context, life, moral and values education has gained attention for its impact on shaping students' characters as future citizens. However, the cultivation of these values is made deeply diversified and complex by varying interpretations of life, moral and values education across societies, given that different societies are influenced by different socio-cultural traditions, educational ideologies and religious beliefs. The means and approaches towards life education also vary vastly from formal school subjects, school-based programmes, as well as teachers and peers' role modelling, community services, extra-curricular activities, school discipline, charity work, pastoral care and school ethos. Recognising this inherent diversity and complexity in the approach to and the dissemination of life education, the contributors to this volume survey the practice of life education in Greater China so far, suggesting that life education is most effective when it is diversified, dynamic and developmental across contexts. This book will provide the opportunity for engaging in important and serious debates about the future and the values that will underpin

it and will prove of special interest to scholars and practitioners working on education policies curriculum development and teacher education in Greater China **Official Report of the ... International Christian Endeavor Convention** ,1896

Leonard Shengold,2013-06-17 In this richly textured study of personal growth and creativity hemmed in by childhood disaster Shengold compares the differing gifts and differing solutions of extraordinary talents as they seek to negotiate a universal longing to refind the mother without sliding back into neglect abuse and despair In the foreground of his analysis are moving portraits of Jules Renard and Anthony Trollope and the densely packed traumatic legacy of their respective childhoods the one limned in sustained psychological torture the other framed by neglect and abandonment Long acknowledged as a master of the literary biographic genre within psychoanalysis Shengold does not view the study of creative individuals as the occasion to make pontifical pronouncements about the nature of creativity Rather he sees such study as affording the opportunity to borrow from genius insofar as the gifted writer who is psychologically astute often captures the challenges of life and the nuances of suffering in language that ordinary patients would use if only they could By integrating literary analysis with biographical data Shengold arrives at an appealingly direct demystified approach to great literature as a vehicle for apprehending the intricacies of enduring psychological dilemmas For the solutions of truly creative individuals not only reflect an artistic temperament wed to extraordinarily gifts they illuminate the solutions we are all in search of Elegantly sparing in language and judicious in presenting source material Is There Life Without Mother is abundantly generous in the wealth of understanding it provides and the deeper reflection it provokes From the subtleties of identification as a means of consolidating identity in the face of neglect to the return of the traumatic as a fate that even a writer s literary revenge cannot circumvent this work takes the reader deeper into the wellsprings of personality change than that it is usually possible to go *Knowledge and Systems Sciences* Jian Chen, Van Nam Huynh, Gia-Nhu Nguyen, Xijin Tang, 2019-11-01 This book constitutes the refereed proceedings of the 20th International Symposium on Knowledge and Systems Sciences KSS 2019 held in Da Nang Vietnam in November 2019 The 14 revised full papers presented were carefully reviewed and selected from 31 submissions This year KSS provides opportunities for presenting interesting new research results facilitating interdisciplinary discussions and leading to knowledge transfer under the theme of Knowledge Science in the Age of Big Data **Classroom Assessment & Grading that Work** Robert J.
