Traditional African Environments The:

Traditional African Environments Oluwatoyin Hunter, 1992 *African Environments and Resources* L. A. Lewis, L. Berry, 2012-07-26 First published in 1988 this work provides a comprehensive picture of the range of physical environments in Africa focusing upon those characteristics and issues central to the management of environmental resources Beginning with an overview of the geographical and environmental history of Africa the authors also provide to the evolution of the management of resources and then details a broadly defined ecosystem approach in which major environmental resource issues are identified and addressed in the tropical rainforest the Savannah dry forest the arid and semi arid areas the highlands and the extra tropical zones of Northern and Southern Africa The book is designed to contribute to a better understanding of African environmental and resource management problems and this reissue should be welcomed by students of Africa and of environmental resource management problems in general **Human Rights and the**

Environment in Africa Jean-Claude N. Ashukem, Semie M. Sama, 2023-11-24 The relationship between human rights and the environment as evidenced by the 2022 UN Resolution on the human right to a healthy environment is a topical fascinating uneasy and increasingly urgent one This timely collection explores the inextricable relationship between human rights and the environment as a critical lens for understanding and addressing key human rights and environmental issues confronting Africa The work explores theoretical philosophical and doctrinal research to interrogate and provide clarity on how and whether the human rightsbased approach to environmental protection and policy implications has been effective in enhancing environmental protection and sustainability in Africa It brings together an elite group of African and international experts to investigate the increasing connectivity and problems with African human rights environmental governance and the quest for sustainability The book is divided into thematic clusters including the right of vulnerable communities to sustainability climate change the right to development and natural resource governance corporate environmental responsibility and sustainability the philosophy of environmental ethics and theories of human rights approaches to environmental governance procedural environmental rights the role of the judiciary in environmental protection and desertification These themes provide a structure to investigate and clarify specific fundamental questions on Africa s environmental governance paradigm This innovative contribution provides an interdisciplinary approach to the philosophical interrelationship and use of human rights approaches to ensure and enhance environmental protection and sustainability As such the book will be of interest to African scholars researchers and students in human rights law environmental studies political science ecology and conservation and development studies It will also be a valuable resource for policymakers governments NGOs practitioners and all those interested in African environmental governance *Environmental Justice in African Philosophy* Munamoto Chemhuru, 2022-04-07 This book focuses on environmental justice in African philosophy highlighting important new perspectives which will be of significance to researchers with an interest in environmental ethics

both within Africa and beyond Drawing on African social and ethical conceptions of existence the book makes suggestions for how to derive environmental justice from African philosophies such as communitarian ethics relational ethics unhu ubuntu ethics ecofeminist ethics and intergenerational ethics Specifically the book emphasises the ways in which African philosophies of existence seek to involve everyone in environmental policy and planning and to equitably distribute both environmental benefits such as natural resources and environmental burdens such as pollution and the location of mining industrial or dumping sites This extends to fair distribution between global South and global North rich and poor urban and rural populations men and women and adults and children These principles of humaneness relationships equality interconnectedness and teleologically oriented existence among all beings are important not only to African environmental justice but also to the environmental justice movement globally The book will interest researchers and students working in the fields of environmental ethics African philosophy and political philosophy in general

Law, Religion and the Environment in Africa M. Christian Green, Muhammed Haron, 2020-06-03 This volume explores themes of ecotheology ecofeminism environmental pollution and degradation climate change human and environmental rights sustainable development human animal relations through totem and taboo sacred sites and spaces and other environmental topics in ways that add immeasurably to the study of African environmentalisms and the interaction of law and religion In terms of religion the capability of humans not only to sin and destroy the earth but also to repair and redeem it is very much in evidence across Christianity Islam and Africa s many indigenous religious and cultural traditions In terms of law the need for effective policies and for states and governments to work with indigenous groups and communities towards environmental solutions is also apparent

African Environmental Ethics Munamoto Chemhuru, 2019-05-30 This book focuses on under explored and often neglected issues in contemporary African environmental philosophy and ethics Critical issues such as the moral status of nature African conceptions of animal moral status and rights African conceptions of environmental justice African relational Environmentalism ubuntu African theocentric and teleological environmentalism are addressed in this book It is unique in so far as it goes beyond the generalized focus on African metaphysics and African ethics by exploring how these views might be understood differently in order to conceptualize African environmental ethics Against the background where environmental problems such as pollution climate change extinction of flora and fauna and global warming are plain to see it becomes useful to examine how African conceptions of environmental ethics could be understood in order to confront some of these problems facing the whole world This book will be of value to undergraduate students graduate students and academics working in the area of African Philosophy African Environmental Ethics and Global Ethics in general
