War Machine:

War Machine Daniel Pick, 1996-01-01 This intriguing study examines Western perceptions of war in and beyond the nineteenth century surveying the writings of novelists anthropologists psychiatrists psychoanalysts philosophers poets natural scientists and journalists to trace the terms of modern thought on the nature of military conflict Daniel Pick brings together philosophical and historical models of war with fictions of invasion propaganda from the Great War interpretations of shellshock and speculations about the biological value of conquest He discusses the work of such familiar commentators as Clausewitz Engels and Treitschke and examines little known writings by Proudhon De Quincey Ruskin Valery and many others culminating in the extraordinary dialogue between Freud and Einstein Why War He analyses Victorian fears of French contamination through the Channel Tunnel as well as the widespread continuing dread of German domination And he charts the history of the pervasive European belief that war is beneficial or at least functionally necessary A central theme of the book is the disturbing relationship between machinery and destruction Visions of relentless technological progress and the inexorable advance of the military industrial complex often seem to distort our understanding of war even to reduce it to a sophisticated game played out by high precision automata Pick explores both the reassuring and troubling aspects of such representations Shorn of human agency or responsibility war apparently threatens to become technologically unstoppable the remorseless perfect abattoir of the industrial age *War Machine* explores the enduring historical fascination with and recoil from brutal mechanical slaughter and the modern acquiescence in and enthusiasm for in Rilke's phrase these days of monstrously accelerated dying

War Machine Andy Remic, 2008-09-30 In a time of post Singularity and FTL travel the Helix War has raged across galaxies Ex soldier Keenan now works as a private investigator on a planet at the peaceful fringes of the Quad Gal Following the brutal death of his family he's run up hefty debts gained a bad reputation and become a heavy drinker When a prince from the Jervai Province offers him a case on a dangerous colony world in exchange for clues that may lead him to his family's murderer he accepts the job without hesitation However to have any chance of success he must gather together his old military unit a group who swore they'd never work together again

Retired Performers' Reflections for Movement Practice Luke Jones, Zoë Avner, Allison Jeffrey, 2026-04-20 *Retired Performers' Reflections for Movement Practice* explores how former expert performers from the realms of sport dance and movement practice relate to and subsequently teach coach or instruct their disciplines This edited collection is the first of its kind to bring together sociologically informed accounts from former expert performers regarding the influence of their ongoing reflections on how they now choose to navigate performance spaces The chapters examine the legacy of each author's involvement in their movement performance space but they specifically do so with a focus on how their post performance experiences and reflections have reoriented how they approach their coaching practice instruction pedagogy and community engagement This book is key reading for graduate and postgraduate students as well as academics and researchers interested in

,1914 *Ordnance* ,1924 **America's War Machine** James McCartney,Molly Sinclair McCartney,2015-10-27 A veteran Washington reporter reveals how years of military slanted domestic and foreign policy have turned the U S into a perpetual war machine When President Dwight D Eisenhower prepared to leave the White House in 1961 he did so with an ominous message for the American people about the disastrous rise of the military industrial complex Fifty years later the complex has morphed into a virtually unstoppable war machine one that dictates U S economic and foreign policy in a direct and substantial way Based on his experiences as an award winning Washington based reporter covering national security James McCartney presents a compelling history from the Cold War to present day that shows that the problem is far worse and far more wide reaching than anything Eisenhower could have imagined Big Military has become too big to fail and has grown to envelope the nation s political cultural and intellectual institutions These centers of power and influence including the now complicit White House and Congress have a vested interest in preparing and waging unnecessary wars The authors persuasively argue that not one foreign intervention in the past 50 years has made us or the world safer With additions by Molly Sinclair McCartney a fellow journalist with 30 years of experience America s War Machine provides the context for today s national security state and explains what can be done about it [The Searchlight](#) ,1919 [Nineteenth Century, a Monthly Review](#) ,1916 **College Athletics** Charles William Kennedy,1925 **Official Proceedings of the New York Railroad Club** New York Railroad Club,1922 [Proceedings of the United States Naval Institute](#) United States Naval Institute,1922 *Homiletic Review* ,1914
