## What Is A Disaster:

**What is a Disaster?** E.L. Quarantelli, 2005-06-27 Are conflict situations such as the ethnic clashes in Yugoslavia or Rwanda terrorist attacks and riots the same kind of social crises as those generated by natural and technological happenings such as earthquakes and chemical explosions In *What is a Disaster* social science disaster researchers from six different disciplines advance their views on what a disaster is Clashes in conceptions are highlighted through the book's unique juxtaposition of the authors separately advanced views A reaction paper to each set of views is presented by an experienced disaster researcher in turn the original authors provide a response to what has been said about their views *What is a Disaster* sets out the huge conceptual differences that exist concerning what a disaster is and presents important implications for both theory study and practice

**What is a Disaster?** Enrico Louis Quarantelli, 2005 *What is a Disaster* Addresses the most basic question in the field that of defining the phenomenon of study For theoretical advancement it is important that researchers begin to develop a consensus about the meaning of disasters and related phenomena With the rise in international terrorism one must clarify whether these events are disasters and if so what kind of disasters Similarly in addition to natural disasters do we include riots explosions nuclear power plant accidents damn collapses and land subsidence under the same conceptual umbrella What practical and theoretical differences does it make if the same label is used or not used for such different situations *What is a Disaster* Brings together twelve social scientists representing eight disciplines and seven countries to share their definition and vision of disasters In the process a wide range of views are expressed and issues raised regarding the relationship of academic versus practical definitions the impact of grouping types of disasters in different ways and the epistemologies on which theoretical growth should rest The forum provided involves the presentation of each author's views followed by a discussant's critique and closed with a response from the author The editor's close the volume with discussions of the theoretical framework of disaster research and an agenda for disaster research in the twenty first century
