*Miracles Happen When Women Pray* Bobbye Byerly, 2002-02-05 What happens when an ordinary woman surrenders her prayer life to the Holy Spirit's leading? The author shares her lifelong adventures with the Holy Spirit showing how miracle-producing prayer is God's intended norm, not the exception, for praying women. The author's stories and teaching will build the reader's faith and understanding of the power of intercession that prayer is a partnership to bring about God's will on earth. When we surrender our own agendas, seeking only to hear God's voice, our prayers release His power into situations and bring about supernatural results. Understanding God's ways and His character changes us, making us conduits for His power and purposes in this world.

**Prayers of Jewish Women** Markus H. McDowell, 2006 Markus McDowell examines how the literature of the Second Temple period portrays women at prayer through an examination of the literary context and character of those prayers The goal of this work is a greater understanding of how women were portrayed in literary sources and an offering of some fresh insights for the study of women's religious and social roles in the ancient world The texts are analyzed and categorized within five areas social location content form occasion and gender perspective The prayers are also compared and contrasted with men's prayers in the same sources The analysis includes locating as much as possible the historical literary and cultic context of each document in which these prayers appear By examining all prayers in these texts uttered by women not just prayers of named or prominent women and then comparing them with all the prayers of men in those same texts certain patterns appear This study adds to our knowledge of women and religion in Second Temple Judaism by primarily exploring patterns that appear among the prayers in the literature of the Second Temple period While there are fewer prayers by women than men in this literature the prayers of women are not portrayed as significantly different from those of men in terms of social location content form or occasion At the same time the prayers of women exhibit other patterns of language and in a minor way form and occasion that differ from the prayers of men
