A sweeping history of the 1840s Manifest Destinies captures the enormous sense of possibility that inspired America's growth and shows how the acquisition of western territories forced the nation to come to grips with the deep fault line that would bring war in the near future. Steven E. Woodworth gives us a portrait of America at its most vibrant and expansive. It was a decade in which the nation significantly enlarged its boundaries taking Texas, New Mexico, California, and the Pacific Northwest. William Henry Harrison ran the first modern populist campaign focusing on entertaining voters rather than on discussing issues. Prospectors headed west to search for gold. Joseph Smith founded a new religion. Railroads and telegraph lines connected the country's disparate populations as never before. When the 1840s dawned, Americans were feeling optimistic about the future. The population was growing, economic conditions were improving, and peace had reigned for nearly thirty years. A hopeful nation looked to the West where vast areas of unsettled land seemed to promise prosperity to anyone resourceful enough to take advantage. And yet political tensions roiled below the surface as the country took on new lands. Slavery emerged as an irreconcilable source of disagreement between North and South, and secession reared its head for the first time. Rich in detail and full of dramatic events and fascinating characters, *Manifest Destinies* is an absorbing and highly entertaining account of a crucial decade that forged a young nation's character and destiny.

Yuba Feather Hills Rosemarie Mossinger, Yuba Feather Museum, 2006. The Yuba and Feather Rivers flank a rugged portion of the Sierra Nevada as they rush south. Gold in creeks and streams here attracted thousands of treasure hunters who panned, dug, or scoured the hills with hydraulic jets of water. At the height of the rush, mule teams loaded with supplies and stagecoaches filled with miners passed through every few minutes heading from Marysville or Oroville to the high Sierra camps. Thriving towns sprang up along the way, one boasting five hotels and seven saloons. Later, others came to log the massive pine and fir or make their home in a land they valued for its beauty. Ten towns survive today: Brownsville, Challenge, Clipper Mills, Dobbins, Forbestown, La Porte, Oregon House, Rackerby, Strawberry Valley, and Woodleaf. Although siblings at birth, over the last 150 years each has developed a unique character and charm.

Gold Rivers of Northern California Marjorie B. Giles, 2001. Trailblazers, entrepreneurs, heroes, and rascals unearthed gold and diamonds north of the Mother Lode. At the northern mines, financiers of the Industrial Revolution developed their claims until the country's first environmental legislation dissuaded them. Ghost towns with vast cemeteries

The Making of Yosemite Jen A. Huntley,2014-01-31 Leader of the first tourist expedition into Yosemite in 1855 James Mason Hutchings became a tireless promoter of the valley and of himself Seeking to create an alternative to California s Gold Rush social chaos Hutchings whetted the public enthusiasm for this unspoiled land by mass producing a lithograph of Yosemite Falls while his Hutchings California Magazine beat the drum for tourism But because of his later legal imbroglios over the park Hutchings was effectively written out of its history and today he is largely viewed as an opportunist who made a career out of exploiting Yosemite Now Jen Huntley removes the tarnish from Hutchings s image She portrays him instead as a connector who brought artists to Yosemite and Yosemite to Americans and uses his career as a lens through which to view the contests and debates surrounding the creation of Yosemite and by extension America s emerging ethic of land conservation Blending environmental and cultural history she tracks Hutchings s professional trajectory amidst significant changes in nineteenth century America from technological advances in printing to the growth of tourism from the birth of modern environmental movements to battles over public lands Huntley uses Hutchings s legal battles with the government over ownership of land in the Yosemite Valley to analyze larger battles over public land management and national identity She also explores the role of urban San Francisco in designating Yosemite a public park shows how the Civil War transformed Yosemite from a regional icon to a national symbol of post war redemption and takes a closer look at Hutchings s relationship with John Muir Making Yosemite sheds light on the role of power class dynamics and the late century ideal of individualism in the shaping of modern America s sacred landscapes Hutchings emerges here as a visionary communicator who cleverly tapped into midcentury Americans attitudes toward spectacular scenery to create a sense of place based identity in the American Far West Huntley s revisionist approach rediscovers Hutchings as a key player in the histories of American media tourism and environmentalism and suggests new terrain for scholars to consider in writing the histories of our national parks conservation and land policy
