Managing Community Growth Eric Kelly, 2004 Despite roughly thirty years of experience with growth management programs which are basically land use planning tools most U S communities do not plan for how best to limit or manage rapid growth in fact most communities do not plan at all In the absence of planning land use boards regulators and other governing bodies simply react to initiatives from the private sector The result is predictably haphazard and does not allow communities to achieve such goals as protecting quality of life attracting certain types of businesses while discouraging others conserving wildlife or preserving open spaces and so forth In contrast planning by managing growth can help a town or city achieve any number of goals But it is a complex task This book brings the benefit of state and local experiences with growth management to researchers students and particularly practitioners who seek guidance in these matters Kelly provides a much needed context from which any community can answer the following questions Does growth management work Is it appropriate for the community and the particular problems that it is trying to address Is one type of growth management program more appropriate than another for our community Will the program in question have undesirable or desirable side effects What are the likely effects of adopting no growth management program at all This work is invaluable for the citizen volunteers who sit on land use boards including planning and zoning commissions conservation commissions and inland wetlands agencies In addition it can aid mayors city managers and city councils in interviewing and selecting candidates for town planner

Smart Growth Audits Jerry Weitz, Leora Susan Waldner, 2002 A look at how a local government can examine the genetic codes of its planning the regulations and plans that govern development to determine whether those codes are programmed to facilitate sprawl or smart growth This report describes the concept of a smart growth audit and provides methods to implement one in your community Examples from a state Illinois regions in Indiana the Puget Sound are and metropolitan Atlanta are included but the focus is on how to do an audit at the local level using case studies of the audits in Charlotte Mecklenburg County and Durham North Carolina and Brookings Oregon A range of possible audits are described from a very basic audit to a very comprehensive audit for which a checklist is included

Urban Sprawl Donald C. Williams, 2000-11-08 Addresses the various issues surrounding the subject of environmental crisis including conserving natural resources saving the ozone layer reversing environmental damage and other related topics

Costs of Sprawl--2000, 2002 Describes urban sprawl and its effects The report begins with background historical information and then analyzes the impact of sprawl on resources including land conversion water and sewer infrastructure local road infrastructure local public service costs and real estate development costs Personal costs of sprawl are then described in terms of travel miles travel costs and quality of life The report ends with a discussion of the benefits of sprawl and ways to reduce the negative effects
