Digital Nomads. How the era of digitalization creates alternative lifestyles Lisa-Marie Wagner,2020-06-18
Bachelor Thesis from the year 2020 in the subject Business economics Business Management Corporate Governance grade 1
6 language English abstract In this paper the phenomenon of digital nomadism in permanent employment is presented In
general digital nomads are characterized by their independence of location their employment in the digital space and
common values Most of them are freelancers and entrepreneurs but also employees who are part of this movement want to
leave the conservative concept of normal employment and break new ground First the changes in the business world and the
emergence of digital nomadism were presented in this paper Due to a lack of literature guideline based expert interviews
were conducted to gain insight into the opportunities and risks of the multi local lifestyle concept for employees and
companies In addition the framework conditions for companies and digital nomads required by this work and life concept
were examined and presented in detail Such a framework condition can mean for example the adaptation of processes and
leadership There are also differences between completely remote companies and only partially remote companies which can
lead to a split company structure In this context the similarities and differences between traditional telework and digital
nomadism in permanent employment were also examined These are similar for example regarding the technical prerequisites
that should be created in companies and the changed communication In addition there are challenges and opportunities that
arise from the travel component and the nature of digital nomadism such as negatively impaired processes due to time
differences or certain characteristics and experiences that digital nomads possess or experience that can be used positively
in a professional context Thus this work not only serves a scientific purpose but also provides a practical framework for
employing digital nomads in traditional companies Routledge Handbook of Trends and Issues in Tourism Sustainability,
