**Designing the Department Store** Emily M. Orr, 2019-11-28 The book builds an original argument for the department store as a significant site of design production and therefore offers an alternative interpretation to the mainstream focus on consumption within retail history Emily M Orr presents a fresh perspective on the rise of modern urban consumer culture of which the department store was a key feature By investigating the production processes of display as well as fascinating information about display making s tools and technologies the skills of the displayman and the meaning and context of design decisions which shaped the final visual effect are revealed In addition the book identifies and isolates display as a distinct moment in the life of the commodity and understands it as an influential channel of mediation in the shopping experience The assembly and interpretation of a diverse range of previously unexplored primary resources and archives yields fascinating new evidence showing how display achieved an agency which transformed everyday objects into commodities and made consumers out of passersby

**Shopping and the Senses, 1800-1970** Serena

Dyer, 2022-03-12. This book demonstrates the primacy of touch, smell, taste, sight, and sound within the retail landscape. It shows that histories of the senses, body, and emotions were inextricably intertwined with processes and practices of retail and consumption. Shops are sensory feasts. From the rustle of silk to the tempting aroma of coffee, the multi-sensory appeal of goods has long been at the heart of how we shop. This book delves into and beyond this seductive idyll of consumer sensuality. Shopping was a sensory activity for consumers and retailers alike, but this experience was not always positive. This book is inhabited by tired feet and weary workers, as well as eager shoppers. It considers embodied sensory experiences and practices, and it represents both a celebration and interrogation of the integration of sensory histories into the study of retail and consumption. Crucially, this book places breathing, feeling human bodies back into the retail space.

*Store Presentation & Design No.2 INTL* Martin M. Pegler, 2007-04-24. Included are over 40 examples of how store designers/architects create store designs that are adapted to different spaces, locations, and countries while maintaining a recognizable brand image. Also shown are scores of examples of branding as it appears in store windows. Publisher: Great Retail Displays Visual
