Storm Planet Earth:

Storm; Planet Earth Addison Beecher Colvin Whipple,1982 *Infectus Phytor* Kurt Smolek,2016-11-18 Thousands of years ago two alien races left their dying world and decided to come to Earth One race wanted to take over and rule Earths inhabitants while the other wanted to live in coexistence and in peace with them A civil war broke out between the alien races and the inhabitants of Earth got caught in the middle of it In the final battle civilizations were destroyed nations sank into the seas and a setback of hundreds of years for Earths population technology and evolution happened In todays world the alien threat is growing once again and they are planning their revenge with their extinction agenda A small group of unique individuals have come together to fight in an all or nothing war against this infection on our planet They are called Infectus Phytor Their ancestors were hunted and killed for being defiant or different They now team together bringing an alien a mermaid a sorcerer a marine a time traveler a bigfoot a mutant and a wild cat lady They will either eliminate the enemy or be eliminated themselves There will be no prisoners in this final stand to save the planet and its inhabitants

Potential Causes and Impacts of Dukhan Adhitya Dwipayana Raspati,2021-09-27 Dukhan is a sign of the beginning of the great apocalypse or the destruction of the world trusted by all Muslims The potential for a dukhan disaster can be caused by a series of several cosmic events around Planet Earth that occur almost simultaneously which will have a negative impact on Planet Earth The potential impact of dukhan allows it to be global can disrupt the stability of the Earth s environmental layers or biosphere which threatens the survival of living things on Planet Earth especially to humans Humans who are exposed to dukhan will be divided into two groups one of the effects of dukhan on humans that will experience health problems ranging from mild to the level of genetic mutations Disaster mitigation approach is needed in dealing with the dukhan disaster event as an effort so that humans can survive **Ancient Enemies Future Heroes** Kurt

Smolek,2017-09-07 What if earths history as we know it is only a fragment of the actual truth What if it started thousands of years before we ever thought Could it be possible that an advanced society and civilization thrived here on earth but due to a worldwide flood their existence was nearly wiped away from history With melting glaciers at the end of the last ice age then combined with a comet colliding with the earth it caused global rainstorms and increased volcanic activity resulting in the rapid melting of earths ice It quickly flooded earths entire surface After over a month of flooding only a small fragment of earths inhabitants survived Many civilizations and creatures were totally wiped away Many great cities were buried or sent to the bottom of seas Animals and humans had to start over with repopulating the earth Over time some evidence of this time has been found Some of these items found are more advanced then we are today Some items are even questionable if they are even from earth Only a few left today really know the truth about our planet An alien race came to earth to escape their dying world They tried taking over and ruling our world and all its inhabitants After many hundreds of years a civil war broke out among them with the human race getting caught in the middle After a last attempt battle to end the war both sides were

sent into hiding and waiting Now in todays world the aliens are once again planning their takeover of our world with their extinction agenda They have already started influencing our society A small group of individuals have been tragically brought together after their ancestors were eliminated by the aliens because they were being seen as threats Now this small group is the only one in the aliens way of global domination
