Biorelativity David K. Miller, 2012-05-29 A shift in consciousness has occurred on the planet during the past twenty five years marking a new moment in the evolution of humanity's consciousness concerning our relationship to Earth and to the cosmos We now accept that human beings are interacting with a living planet and we understand that this living planet has an energetic relationship to the galaxy We have also come to understand that the entire biological and energy system of this beautiful planet we live on is totally dependent on how humans treat the planet the environment and other life forms on Earth Biorelativity describes the ability of human beings to telepathically communicate with the spirit of the Earth The goal of such communication is to influence the outcome of natural Earth events such as storms volcanoes and earthquakes This book is a collection of channeled lectures through Arcturian Native American and other mystical guides transmitted in sessions from 2009 through

early 2011 that describe the exercises and thought developments related to biorelativity the planetary cities of light and the Arcturian Tree of Life that together form new technology for Earth healing Through these lessons you can implement new planetary healing techniques right now actively participating in exciting changes as Earth and humanity come together in unity and healing *Raising the Spiritual Light Quotient* David K. Miller,2011-04-25 The concept of raising the spiritual light quotient is similar to the intelligence quotient used in modern psychology the IQ test However the spiritual light quotient is not the same as intelligence Rather the SLQ reflects one s ability to understand spiritual concepts to meditate and to connect with other dimensions It also is a measurement of one s ability to understand the relationship between Earth and the environment of the Earth and Earth s relationship to the galaxy Finally it is a measurement of one s ability to understand the existence of other dimensions as well as the relationship between the ascended masters and guides and our journey to higher realms for soul evolution Thus it appears necessary to look at the SLQ of a person the SLQ of an area and the SLQ of a planet All of the channeling I bring forth is based on the concept of the Sacred Triangle which is a new paradigm for spirituality This paradigm states that in order to heal Earth and bring everything into balance one must unite the concepts of galactic spirituality with ancient mystical thought and with the energies of native peoples including Native Americans
