This open access book contains the oral histories that were inspired by the work of the Special Olympics in conjunction with the 50th anniversary of its founding. The foreword and prefatory materials provide an overview of the Special Olympics and its growth in the People's Republic of China. The sections that follow record interview transcripts of individuals with intellectual disabilities living in Shanghai. In addition to chronicling the involvement of these individuals and their families in the Special Olympics movement, the interview transcripts also capture their daily lives and how they have navigated school and work.

This open access book is unique in presenting the first oral history of individuals with an intellectual disability and their families in China. In this summary volume and the two accompanying volumes that follow, individuals with an intellectual disability tell their life stories, while their family members, teachers, classmates, and co-workers describe their professional, academic, and family relationships. Besides interview transcripts, each volume provides observations and records in real time of the daily experiences of people with an intellectual disability. Drawing on the methodologies of sociology and oral history, the summary volume provides an unprecedented account of how people with intellectual disabilities in China understand themselves, while also examining pertinent issues of public policy and civil society that have ramifications beyond the field of disability itself.
