Boustan, Alex P. Jassen, Calvin J. Roetzel, 2009-10-26 This volume analyzes the various and overlapping discourses of religious violence that emerged within Jewish and Christian culture in the Roman world Toward this end the nine papers collected here address both the presence of violence within the authoritative scriptural traditions of early Judaism and Christianity and the redeployment of these older traditions to represent legitimate and indeed sacralize violence Individual papers focus on the specific social and historical contexts from which these texts emerged while the volume as a whole highlights the patterns of textual practice shared across social and religious boundaries Throughout the dynamic interplay between text tradition and violence in early Jewish and Christian culture is located within the broad landscape of Roman imperial society

Textual Practice Jean Howard, Alan Sinfield, Lindsay Smith, 2005-06-27 In this volume Textual Practice brings together some of its most pressing concerns by exploring the interaction of texts with language politics gender and history Textual Practice has a theoretical approach that crosses over into a range of other apparently disparate disciplines philosophy history law medicine science architecture gender and media studies Key Features Features the most exciting new voices and the most influential new scholars in the field Multidisciplinary Includes two articles on Ireland _ _ _ Shakespeare and the Problem of Adaptation Margaret Jane Kidnie, 2009 Kidnie s study presents original sophisticated and profoundly intelligent answers to important questions Lukas Erne University of Geneva This is a fine and productive book one that will surely draw significant attention and commentary well beyond the precincts of Shakespeare studies W B Worthen Columbia University Shakespeare s plays continue to be circulated on a massive scale in a variety of guises as editions performances and

adaptations and it is by means of such mediation that we come to know his drama Shakespeare and the Problem of Adaptation addresses fundamental questions about this process of mediation making use of the fraught category of adaptation to explore how we currently understand the Shakespearean work To adapt implies there exists something to alter but what constitutes the category of the play and how does it relate to adaptation How do play and adaptation relate to drama's twin media text and performance What impact might answers to these questions have on current editorial performance and adaptation studies Margaret Jane Kidnie argues that play and adaptation are provisional categories mutually dependent processes that evolve over time in accordance with the needs of users This theoretical argument about the identity of works and the nature of text and performance is pursued in relation to diverse examples including theatrical productions by the Royal Shakespeare Company the BBC's ShakespeaRe Told the Reduced Shakespeare Company and recent print editions of the complete works These new readings build up a persuasive picture of the cultural and intellectual processes that determine how the authentically Shakespearean is distinguished from the fraudulent and adaptive Adaptation thus emerges as the conceptually necessary but culturally problematic category that results from partial or occasional failures to recognize a shifting work in its textual theatrical instance

Voice, Text, Hypertext Raimonda Modiano, Leroy F. Searle, Peter L. Shillingsburg, 2016-06-01 Voice Text Hypertext illustrates brilliantly why interest in textual studies has grown so dramatically in recent years For the distinguished authors of these essays a text is more than a document or material object It is a cultural event a matrix of decisions an intricate cultural practice that may focus on religious traditions modern underground literary movements poetic invention or the irreducible complexity of cultural politics Drawing from classical Roman and Indian to modern European traditions the volume makes clear that to study a text is to study a culture It also demonstrates the essential importance of heightened textual awareness for contemporary cultural studies and critical theory and indeed for any discipline that studies human culture

Marvels & Tales ,1998 *Journal of fairy tale studies* Reading the Middle Generation Anew Eric Haralson,2006-05 Ten original essays by advanced scholars and well published poets address the middle generation of American poets including the familiar Robert Lowell Elizabeth Bishop Randall Jarrell and John Berryman and various important contemporaries Delmore Schwartz Theodore Roethke Robert Hayden and Lorine Niedecker This was a famously troubled cohort of writers for reasons both personal and cultural and collectively their poems give us powerful moving insights into American social life in the transforming decades of the 1940s through the 1960s In addition to having worked during the broad middle of the last century these poets constitute the center of twentieth century American poetry in the larger sense refuting invidious connotations of middle as coming after the great moderns and being superseded by a

proliferating postmodern experimentation This middle generation mediates the so called American century and its prodigious body of poetry even as it complicates historical and aesthetic categorizations Taking diverse formal and thematic angles on these poets deconstructionist biographical historical and more formalist accounts this book re examines their between ness and ambivalence their various positionings and repositionings in aesthetic political and personal matters The essays study the interplay between these writers and such shifting formations as religious discourse consumerism militarism and war the ideology of America as nature s nation and U S race relations and ethnic conflicts Reading the Middle Generation Anew also shows the legacy of the middle generation the ways in which their lives and writings continue to be a shaping force in American poetry This fresh and invigorating collection will be of great interest to literary scholars and poets

the chapters treats in some detail issues relating to the theme of time in rhetorical practice and studies Time appears as an issue here especially in considerations of the persistence of themes and forms in recurrent attempts to transcend and re shape public memory in the choice of speakers and critics to celebrate appropriate revise reframe or reject earlier texts and of course in the use of public oratory to influence the future
