The Caryatids Bruce Sterling,2009-02-24 Alongside William Gibson and Neal Stephenson Bruce Sterling stands at the forefront of a select group of writers whose pitch perfect grasp of the cultural and scientific zeitgeist endows their works of speculative near future fiction with uncanny verisimilitude To read a novel by Sterling is to receive a dispatch from a time traveler Now with *The Caryatids* Sterling has written a stunning testament of faith in the power of human intellect creativity and spirit to overcome any obstacle even the obstacles we carry inside ourselves The world of 2060 is divided into three spheres of influence each fighting with the others over the resources of fallen nations and an environment degraded almost to the point of no return There is the Dispensation centered in Los Angeles where entertainment and capitalism have fused with the highest of high tech There is the Acquis a Green centered collective that uses invasive neurological technology to create a networked utopia And there is China the sole surviving nation state a dinosaur that has prospered only by pitilessly pruning its own population Products of this monstrous world the daughters of a monstrous mother and according to some monsters themselves are the Caryatids the four surviving female clones of a mad Balkan genius and wanted war criminal now ensconced safely beyond extradition on an orbiting space station Radmila is a Dispensation star determined to forget her past by building a glittering impregnable future Vera is an Acquis functionary dedicated to reclaiming their home the Croatian island of Mljet from catastrophic pollution Sonja is a medical specialist in China renowned for selflessly risking herself to help others And Biserka is a one woman terrorist network The four sisters are united only by their hatred for their mother and for one another When evidence surfaces of a coming environmental cataclysm the Dispensation sends its greatest statesman or salesman John Montgomery Montalban husband of Radmila and lover of Vera and Sonja to gather the Caryatids together in an audacious plan to save the world
