A People's History of Detroit Mark Jay,Philip Conklin,2020-04-17 Recent bouts of gentrification and investment in Detroit have led some to call it the greatest turnaround story in American history Meanwhile activists point to the city s cuts to public services water shutoffs mass foreclosures and violent police raids In A People s History of Detroit Mark Jay and Philip Conklin use a class framework to tell a sweeping story of Detroit from 1913 to the present embedding Motown s history in a global economic context Attending to the struggle between corporate elites and radical working class organizations Jay and Conklin outline the complex sociopolitical dynamics underlying major events in Detroit s past from the rise of Fordism and the formation of labor unions to deindustrialization and the city s recent bankruptcy They demonstrate that Detroit s history is not a tale of two cities one of wealth and development and another racked by poverty and racial violence rather it is the story of a single Detroit that operates according to capitalism s mandates

The Sanitary City Martin V. Melosi,2008-04-27 Immersed in their on demand highly consumptive and disposable lifestyles most urban Americans take for granted the technologies that provide them with potable water remove their trash and process their wastewater These vital services however are the byproduct of many decades of development by engineers sanitarians and civic planners In The Sanitary City Martin V Melosi assembles a comprehensive thoroughly researched and referenced history of sanitary services in urban America He examines the evolution of water supply sewage systems and solid waste disposal during three distinct eras The Age of Miasmas pre 1880 The Bacteriological Revolution 1880 1945 and The New Ecology 1945 to present day Originally

Fainstein,2001 This revised edition examines major redevelopment efforts in New York and London to uncover the forces behind these investment cycles and the role that public policy can play in moderating market instability It chronicles the progress of three development projects in New York and three in London Catalogue of the Library of the Peabody Institute of the City of Baltimore ... that continue to struggle in the shadows of high rise America This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development Together they show how urban neighborhoods can and must be preserved as economic cultural and political centers
